Moral Soundings takes a fresh new approach to introducing students and general readers to contemporary ethics. Rather than surveying the standard fare in a typical anthology format, Furrow collects diversified essays around a structured theme: does Western culture face a moral crisis of values?

Moral Soundings: Readings on the Crisis of Values in ...

Framed to probe the issue of what lies beneath the troubled waters of Western life, Dwight Furrow's Moral Soundings bridges the gap between academic philosophy and the world of public intellectuals. Badly needed; it is a gift.--George Harris, chancellor professor of philosophy, College of William and Mary

Read Online Moral Soundings Readings On The Crisis Of Values In Contemporary Life

The 21 readings serve as an adjunct to textbooks in courses on the moral health of the US. Taken mostly from public interest journals and written by active participants in the public debate about values, they are designed to demonstrate that the common denominator to many disagreements is a difference over the meaning and value of personal autonomy. Annotation ©2004 Book News, Inc., Portland, OR (booknews.com)

[Furrow's] proposals are fresh - he urges liberals to develop 'a more substantial moral identity' and win a few battles in the values war by building upon their 'inherent culture of caring,' repackaging the conservative movement's successful tactics for the Left.- Publishers Weekly
In this fresh assessment of the liberal perspective on politics, philosopher Dwight Furrow explains how liberalism lost its moral credentials in the face of challenges from conservatives. He articulates a new way of understanding the moral foundations of liberalism that will restore its political fortunes along with America's shattered moral authority. A work of popular philosophy, *Reviving the Left* is written in a serious but lively, engaging, and

often polemical style. Furrow begins by noting that political ideologies have the power to motivate people because they embody conceptions of how to live. Conservatives have understood this more clearly than liberals, who for too long have relied on bureaucratic solutions and interest-group politics, which have lacked moral credibility and passion. Now more than ever, says Furrow, progressive politics, if it is to move people hungry for change, needs a new vision that will give birth to a more substantial liberal moral identity. Furrow takes conservatism to task for promoting what he labels a culture of cynical, violent narcissism. But rather than praising the liberalism of the past, he argues that liberals must radically revise their conception of moral value in order to reverse the damage left behind by many years of conservative rule. Reviving the Left argues that liberals must build a culture of caring from the ground up by giving social institutions incentives to encourage a more prominent role in public life for empathy, compassion, and responsibility. Only in such a culture will liberal political initiatives have a chance to succeed in the long run. Unlike many books on reviving liberalism, which emphasize economics, policy debates, or political strategies, Furrow's *Reviving the Left* uniquely focuses on moral values and their philosophical underpinnings. Furrow's extensive use of references to popular culture, especially well-known films, and

also topics of current political discourse makes for an exciting, contemporary rethinking of the liberal perspective with widespread appeal. Dwight Furrow (San Diego, CA), professor of philosophy at San Diego Mesa College, is the author of *Ethics: Key Concepts in Philosophy and Against Theory: Continental and Analytic Challenges in Moral Philosophy*. He is also the editor of *Moral Soundings: Readings on the Crisis of Values in Contemporary Life*.

Ethics and Phenomenology examines the relevance of major phenomenologists and phenomenological concepts to ethical inquiry in general, as well as to a broad range of contemporary ethical issues.

Dwight Furrow examines the contemporary fascination with food and culinary arts not only as global spectacle, but also as an expression of control, authenticity, and playful creation for individuals in a homogenized, and increasingly public, world.

"This refiguring of Cavell's notion of inheritance is then brought alongside important features of Derrida's deconstruction and the question of its reception in America. By extending Cavell's thought in this manner - through its meeting with Derrida - broader concerns are opened up with regard to both philosophers' work. In Derrida's case,

deconstruction - especially its American reception - gets situated in the emerging post-poststructuralist rubrics of film theory, cultural criticism, postcolonialism, and multiculturalism."--Jacket.

Essays by leading ethicists provide students with a comprehensive introduction to ethical thinking.

List of members in v. 1- .

For several decades, Scott Burnham has sought to bring a ready ear and plenty of humanistic warmth to musicological inquiry. *Sounding Values* features eighteen of his essays on mainstream Western music, music theory, aesthetics and criticism. In these writings, Burnham listens for the values-aesthetic, ethical, intellectual-of those who have created influential discourse about music, while also listening for the values of the music for which that discourse has been generated. The first half of the volume confronts pressing issues of historical theory and aesthetics, including intellectual models of tonal theory, leading concepts of sonata form, translations of music into poetic meaning, and recent rifts and rapprochements between criticism and analysis. The essays in the second half can be read as a series of critical appreciations, engaging some of the most consequential

reception tropes of the past two centuries: Haydn and humor, Mozart and beauty, Beethoven and the sublime, Schubert and memory.

This volume collects both classic and cutting-edge readings related to gender, sex, sexuality, and the Bible. Engaging the Hebrew Bible, New Testament, and surrounding texts and worlds, Rhiannon Graybill and Lynn R. Huber have amassed a selection of essays that reflects a wide range of perspectives and approaches towards gender and sexuality. Presented in three distinct parts, the collection begins with an examination of gender in and around biblical contexts, before moving to discussing sex and sexualities, and finally critiques of gender and sexuality. Each reading is introduced by the editors in order to situate it in its broader scholarly context, and each section culminates in an annotated list of further readings to point researchers towards other engagements with these key themes.

Readings in Ethics offers a vast collection of carefully edited readings arranged chronologically across five historical periods. The selections cover many major Western and non-Western schools of thought, including Daoism, virtue ethics, Buddhism, natural law, deontology, utilitarianism, contractarianism, liberalism, Marxism, feminism, and communitarianism. In addition to texts from canonical

philosophers such as Plato, Mill, Wollstonecraft, and Rawls, the volume draws from other sources of wisdom: stories, fables, proverbs, medieval mystical treatises, literature, and poetry. The editors have also written substantial introductions, annotations, discussion questions, and suggestions for further reading, making for a thorough guided tour of our ethical past and present.
