Here are fifteen mysteries that are still puzzling medieval historians. 1. Why did the Norse disappear from Greenland? Although the Norse had settled in Greenland for over 400 years, their colony was at most only a few thousand people. By the later Middle Ages, the colony was in decline, but it seems the last visitor to Greenland came in 1420.

Mysteries of the Middle Ages is the fifth volume of Thomas Cahill ' s ' Hinges of History ' series, focusing on the individuals in the High Middle Ages who shaped Western society that we know today. Over the course of 300+ pages, Cahill sets out to give his reader a new way to look at the Middle Ages.

Mysteries of the Middle Ages: The Rise of Feminism ...

One of the central ideas of Mysteries of the Middle Ages is that the modern feminist movement has its roots in early Catholicism. Most people would be surprised by that idea. In fact, they might even go so far as to posit exactly the opposite given some of the current teachings of the Catholic Church.

Thomas Cahill – Mysteries of the Middle Ages – Trade Paperback

In the Prelude that follows we must spend a little time in late antique Alexandria, for it was a place of cultural percolation that would have untold influence on the making of the Middle Ages. Then in the Introduction, we shall quickly navigate the intervening centuries from the death of antiquity to the budding of the high Middle Ages.

A Chaucerian Invitation – Mysteries of the Middle Ages ...

The masters of the Middle Ages had, of course, another, less public motive for honoring anchorites. The batlike monks of the Prologue who terrorized the citizens of Alexandria might have been politically useful to the patriarch, but as time went on such mobs, vociferous, usually illiterate, became a religious plague.

From the bestselling author of How the Irish Saved Civilization, a fascinating look at how medieval thinkers created the origins of modern intellectual movements. After the long period of decline known as the Dark Ages, medieval Europe experienced a rebirth of scholarship, art, literature, philosophy, and science and began to develop a vision of Western society that remains at the heart of Western civilization today, from the entry of women into professions that had long been closed to them to the early investigations into alchemy that would form the basis of experimental science. On visits to the great cities of Europe-monumental Rome; the intellectually explosive Paris of Peter Abelard and Thomas Aquinas; the hotbed of scientific study that was Oxford; and the incomparable Florence of Dante and Giotto-acclaimed historian Thomas Cahill brilliantly captures the spirit of experimentation, the colorful pageantry, and the passionate pursuit of knowledge that built the foundations for the modern world. BONUS MATERIAL: This ebook edition includes an excerpt from Thomas Cahill's Heretics and Heroes.

Journey into twelve of the world's favorite medieval mysteries and cross the threshold into the world of the High Middle Ages. From Chaucer's "Canterbury Tales" to Umberto Eco's "Name of the Rose" to Dan Brown's bestselling "The Da Vinci Code," the medieval period continues to intrigue, inspire, entertain and fascinate many today. For the general reader and specialist alike, medieval expert, former Rosslyn Chapel museum exhibition curator and bestselling author Dr. Karen Ralls guides the reader through the key historical facts, legends and lore, affiliated places and major symbolism of each of these 12 popular medieval enigmas, providing a lively introductory portal which includes some of the lesser-known, sidelined or unacknowledged aspects of each of these enduring topics. The story of each subject comes alive as never before, providing a solid introduction for all readers as well as further suggested resources for teachers and researchers. Also included are photographs, a recommended reading section, maps, a list of the key major sites associated with each topic, and a full Bibliography. Topics covered include: King Arthur, Merlin and GlastonburyThe Grail Quest Mary MagdaleneThe real meaning of Black MadonnasThe Knights Templar, the Cathers, and Rosslyn ChapelMedieval Guides and TroubadoursHeresy and Heretics Let this book serve as your personal pilgrimage back to the High Middle Ages - a time of potent symbolism, occult knowledge, and spiritual quests.

It is the year of Our Lord's grace 1431, and the nuns of England's St. Frideswide sweetly chant their Paternosters behind gracious, trellised walls. But their quiet lives are shattered by the unwelcome visit of the hard-drinking, blaspheming dowager Lady Ermentrude, with her retinue of lusty maids and men, baying hounds, and even a pet monkey in tow. The lady demands wine, a feast, and her niece, the frail and saintly novice Thomasine. What she gets is her own strange and sudden death. Sister Frevisse, hosteler of the priory and amateur sleuth, fears murder. The most likely suspect is pious Thomasine . . . but Frevisse alone detects a clever web spun to entangle an innocent nun in the most unholy of passions—and the deadliest of deeds.

Catherine LeVendeur is a young scholar come to conquer her sin of pride at the Convent of the Paraclete, famous for learning, prayer, and its abbess, the fabled Heloise. When a manuscript the convent produced for the great Abbe Suger disappears, rumors surface saying the book contains sacrilegious passages and will be used to condemn Heloise's famous lover, Peter Abelard. To save her Order, and protect all she holds dear, Catherine must find the manuscript and discover who altered the text. She will risk disgrace, the wrath of her family and the Church, and confront an evil older than Time itself--and, if she isn't careful, lose her immortal soul. With Death Comes As Epiphany, the first in the Catherine LeVendeur mystery series, medievalist Sharan Newman has woven dark mystery and sparkling romance into a fascinating and richly detailed tapestry of everyday life in twelfth-century France, and one of the most moving love stories of all time: Abelard and Heloise. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The national bestselling hit hailed by the New York Times as a "vibrant medieval mystery...[it] outdoes the competition." In medieval Cambridge, England, Adelia, a female forensics expert, is summoned by King Henry II to investigate a series of gruesome murders that has wrongly implicated the Jewish population, yielding even more tragic results. As Adelia's investigation takes her behind the closed doors of the country's churches, the killer prepares to strike again.

In Shakespeare ' s Medieval Craft, Kurt A. Schreyer explores the relationship between Shakespeare ' s plays and a tradition of late medieval English biblical drama known as mystery plays. Scholars of English theater have long debated Shakespeare ' s connection to the mystery play tradition, but Schreyer provides new perspective on the subject by focusing on the Chester Banns, a sixteenth-century proclamation announcing the annual performance of that city ' s cycle of mystery plays. Through close study of the Banns, Schreyer demonstrates the central importance of medieval stage objects—as vital and direct agents and not merely as precursors—to the Shakespearean stage. As Schreyer shows, the Chester Banns serve as a paradigm for how Shakespeare ' s theater might have reflected on and incorporated the mystery play tradition, yet distinguished itself from it. For instance, he demonstrates that certain material features of Shakespeare ' s stage—including the ass ' s head of A Midsummer Night ' s Dream, the theatrical space of Purgatory in Hamlet, and the knocking at the gate in the Porter scene of Macbeth—were in fact remnants of the earlier mysteries transformed to meet the exigencies of the commercial London playhouses. Schreyer argues that the ongoing agency of supposedly superseded theatrical objects and practices reveal how the mystery plays shaped dramatic production long after their demise. At the same time, these medieval traditions help to reposition Shakespeare as more than a writer of plays; he was a play-wright, a dramatic artisan who forged new theatrical works by fitting poetry to the material remnants of an older dramatic tradition.

As she examines the many misconceptions about the "Middle Ages", the renown French historian, Regine Pernoud, gives the reader a refreshingly original perspective on many subjects, both historical (from the Inquisition and witchcraft trials to a comparison of Gothic and Renaissance creative inspiration) as well as eminently modern (from law and the place of women in society to the importance of history and tradition). Here are fascinating insights, based on Pernoud's sound knowledge and extensive experience as an archivist at the French National Archives. The book will be provocative for the general readers as well as a helpful resource for teachers. Scorned for centuries, although lauded by the Romantics, these thousand years of history have most often been concealed behind the dark clouds of ignorance: Why, didn't godiche (clumsy, oafish) come from gothique (Gothic)? Doesn't "fuedal" refer to the most hopeless obscurantism? Isn't "Medieval" applied to dust-covered, outmoded things? Here the old varnish is stripped away and a thousand years of history finally emerge -- the "Middle Ages" are dead, long live the Middle Ages!

Dramatic social and economic change during the middle ages altered the lives of the people of Britain in far-reaching ways, from the structure of their families to the ways they made their livings. In this masterly book, preeminent medieval historian Christopher Dyer presents a fresh view of the British economy from the ninth to the sixteenth century and a vivid new account of medieval life. He begins his volume with the formation of towns and villages in the ninth and tenth centuries and ends with the inflation, population rise, and colonial expansion of the sixteenth century. This is a book about ideas and attitudes as well as the material world, and Dyer shows how people regarded the economy and responded to economic change. He examines the growth of towns, the clearing of lands, the Great Famine, the Black Death, and the upheavals of the fifteenth century through the eyes of those who experienced them. He also explores the dilemmas and decisions of those who were making a living in a changing world—from peasants, artisans, and wage earners to barons and monks. Drawing on archaeological and landscape evidence along with more conventional archives and records, the author offers here an engaging survey of British medieval economic history unrivaled in breadth and clarity.

The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of

literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's A Distant Mirror, How The Irish Saved Civilization reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's Heretics and Heroes.
