October 22, 2019. NEW YORK—Mayor Bill de Blasio today announced a multi-agency plan to improve the quality of life of thousands of New Yorkers living in one of the city ' s densest nightlife districts.The plan, created by the Office of Nightlife, targets a 6-block area on Ludlow and Orchard Streets between Houston and Delancey on Manhattan ' s Lower East Side.

Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

Caring for our family members, friends, and others is a central part of a rewarding life. For those in healing and helping professions such as medicine, nursing, education, psychotherapy, social work, ministry, and the military, the potential for a meaningful way of being may even become more possible. But, compassion is not easy. At times, concern for others can be personally devastating when we don't possess the right attitude and approach. Reaching out (and reflectively within) without being pulled down requires the wisdom that only arises out of the right combination of humility and knowledge. Night Call offers the stories and principles gleaned over many years of writing and mentoring for those in the helping and healing professions. The stories are offered in ways that foster compassionate caring while encouraging initiative in those who seek to personally deepen and share their lives with others -- especially in times of significant need. With this in mind, Dr. Wicks presents information on: being a healing presence mining fruits of the failures all of us must experience at times the need to enjoy the daily "crumbs of alonetime" the importance of a spirit of "unlearning" developing a simple realistic self-care program valuing informal or formal mentoring recognizing the "3 calls" to which we must respond to as we psychologically develop honoring life's most elusive psychological virtue (humility) Purposely brief, the chapters, as well as the sections in the "personal resiliency retreat" section at the end of the book, have as their goal a reconsideration of values, signature strengths, and simple approaches to living a resilient, rewarding life. Rather than presenting new breakthroughs, Night Call is designed to dust off what most of us already know, at some level, so we can freshly view the key approaches and techniques that provide increased psychological self-awareness and a potentially healthier sense of presence to others. The themes offered may have been forgotten, or become undervalued/set aside because of some of society's dysfunctional norms or unhelpful family influences. In response, this simple, countercultural book combines the value of essential self-compassion with caring for others in ways that provide the impetus for further exploration of a fuller narrative for both the readers of this work and unforeseen opportunities as well for those who are fortunate enough to cross their paths.

Drawn from the latest research and the author's own experiences with night terrors, this comprehensive guide provides parents with the most effective therapeutic approaches, the pros and cons of medication, and the steps needed for permanently vanquishing this disorder, while improving physical and emotional health. Original.

Traces the development of theories to explain why the night sky is dark, looks at modern theories of cosmology, and includes brief profiles of past astronomers

In this autobiography John kadiba narrates the story of his unique life ' s history. The book brings together various elements of his experiences in his symbolic journey from his traditional village in Papua New Guinea, through other destinations and his settlement in North Australia. The book is a rich tapestry of Kadiba ' s story. It records the momentous events in his life, various places he has travelled through, signifi cant people in his life, his spiritual life and thought, and his cultural roots which have shaped him as an individual. The book tells of his childhood, his schooling and his education. Kadiba sees his schooling and search for education as a decisive thread in his symbolic journey which eventually takes him to settle in North Australia away from his people and culture. Growing up in the colonial era, the book traces his journey through many changes in PNG during the colonial and post-colonial times. The story also recounts his long and at times, troubled association with religious institutions both in PNG and Australia. In many ways the book portrays a very personal story. It tells of Kadiba ' s family life, his courtship and marriage, death in the family, and his children growing up in contemporary multicultural Australia.

An autobiographical narrative, in which the author describes his experiences in Nazi concentration camps.

Mindfulness includes qualities of mind and heart; it provides a strong foundation for other social and emotional skills. Mindfulness is making inroads into classrooms, as teachers seek ways to center and focus their own attention as well as that of their distracted students. Trish Broderick describes the particular relevance of mindfulness to the teaching of adolescent students, including its potential to alleviate stress, foster motivation, engagement, and compassion—and ultimately, to improve both learning and social relationships. Her book is a guide to applying mindfulness to day-to-day classroom challenges; every chapter contains authentic vignettes of secondary teachers and students, brief practices to try, and a set of takeaway points and reflection questions.

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America ' s best-loved novels by PBS ' s The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.
