As wonderful as it is, Singapore Math does have two drawbacks. First, it is up to the parent to co-ordinate assignments between the textbook, workbook, extra practice book, test book, and the mental math exercises. Unlike Saxon, where no planning is needed, Singapore Math requires parents to figure out what they will assign from each book each day.

Based on the highly successful Primary Mathematics series from Singapore. Designed to equip students with a strong foundation in mathematics and critical thinking skills, the program offers an integrated solution to different learning needs in the classroom for Grades 1 to 5.

Singapore Math creates a deep understanding of each key math concept, is a direct complement to the current textbooks used in Singapore, includes an introduction explaining the Singapore Math method, and includes step-by-step solutions in the answer key. Singapore Math, for students in grades 2 to 5, provides math practice while developing analytical and problem-solving skills. Learning objectives are provided to identify what students should know after completing each unit, and assessments are included to ensure that learners obtain a thorough understanding of mathematical concepts.

Perfect as a supplement to classroom work, these workbooks will boost confidence in problem-solving and critical-thinking skills!

Giving your preschooler a great start in math doesn't have to be complicated. Learn how to use fun but purposeful games and activities to give your young child the best possible foundation. *Preschool Math at Home* will guide you step-by-step as you introduce your preschooler to the world of numbers. Your child will develop a thorough understanding of the numbers up to ten, including: counting comparing and ordering numbers recognizing written numerals beginning addition and subtraction All of the activities are quick and playful, with lots of movement, manipulatives, and games. Each takes less than five minutes, with no special materials needed other than a few household items. Play each game several times for a full year of preschool math curriculum.

Based on the highly successful *Primary Mathematics* series from Singapore. Designed to equip students with a strong foundation in mathematics and critical thinking skills, this program offers an integrated solution to learning needs in the classroom for grade 4.
