The Complex Web of Inequality in North American Schools analyzes and challenges the critical gaps and inequalities that persist in the American school system. Showing how historical biases have been inherited in current policies relating to non-dominant youth, the text calls for educational reforms that perform in the name of social justice. This edited collection carefully interrogates how technocratic educational policies and reforms are often unequipped to address the interplay of political, social, economic, ideological factors that are at the roots of educational injustice. Considering the most vulnerable student populations, original case studies explore how inadequate

structures, practices, and beliefs have increased marginalization, and highlight those instances in which policy has proved effective in reducing opportunity gaps between economically rich and poor students; between white, Asian, Black and Latino youth; between native English speakers and second language learners; highlighting racial integration and unequal American Indian education; and for students with special educational needs. The insights into such policies shed light on the complex web of historically embedded inequities that continue to shape the construction, roll-out, and consequences of education policy for the most marginalized youth populations today. This volume will be of interest to graduate, and postgraduate students, researchers and academics in the fields of education policy, sociology of education, economics of education, and history of education, and well as policy evaluation.

The essential resource for success in special education Educators face major challenges when addressing the needs of students with disabilities. This includes understanding a complex legal field: special education law. *Special Education and the Law, Fourth Edition: A Guide for Practitioners* is the ultimate for busy educators. Osborne and Russo, past presidents of the Educational Law Association, are experts in translating legalese into language that educators can understand. They have created a resource that examines legislation and interprets the statutes and their regulations in a reader-friendly format. Major topics include rights of access to public education, procedural due process, placement requirements, delivery of related services, discipline of students with disabilities, and remedies for failure to adhere to the law. With a preventative approach to litigation that separates it from other publications, this book features: Updates on legal developments from the almost-1000 federal and state cases decided since publication of the third edition in 2014 Coverage of IDEA, ADA, FAPE, 504, discipline, IEPs, LRE, parental considerations, public vs. private school considerations, and attorney fees A focus on federal and state interpretations With its user-friendly format, this resource will help

educators focus on their core competency: providing exemplary education to students with special needs.

Provides a wide variety of statistics dealing with the political, social, and economic organization of the United States.

More than fifty years after the civil rights movement, there are still glaring racial inequities all across the United States. In *Rich Thanks to Racism*, Jim Freeman, one of the country's leading civil rights lawyers, explains why as he reveals the hidden strategy behind systemic racism. He details how the driving force behind the public policies that continue to devastate communities of color across the United States is a small group of ultra-wealthy individuals who profit mightily from racial inequality. In this groundbreaking examination of "strategic racism," Freeman carefully dissects the cruel and deeply harmful policies within the education, criminal justice, and immigration systems to discover their origins and why they persist. He uncovers billions of dollars in aligned investments by Bill Gates, Charles Koch, Mark Zuckerberg, and a handful of other billionaires that are dismantling public school systems across the United States. He exposes how the greed of prominent US corporations and Wall Street banks was instrumental in creating the world's largest prison population and our most extreme anti-immigrant policies. Freeman also demonstrates how these "racism profiteers" prevent flagrant injustices from being addressed by pitting white communities against communities of color, obscuring the fact that the struggles faced by white people are deeply connected with those faced by people of color. *Rich Thanks to Racism* is an invaluable road map for all those who recognize that the key to unlocking the United States' full potential is for more people of all races and ethnicities to prioritize racial justice.

Proper health education is a vital component to ensuring patients satisfaction, safety, and well-being. To achieve this goal, interdisciplinary collaboration has emerged as an innovative method for promoting healthy living. Healthcare Community Synergism between Patients, Practitioners, and Researchers is an authoritative reference source for the latest scholarly research on the various collaborative efforts to improve the current state of health systems and patient education. Highlighting research methodologies aimed to enrich the quality of available information in healthcare environments, this book is ideally designed for medical professionals, educators, and researchers.

Education Law, Sixth Edition provides a comprehensive survey of the legal problems and issues confronting school leaders, teachers, and policymakers today. Court cases accompanied by explanation and analysis can help aspiring educators understand the subtlety and richness of the law. Accordingly, each of the 12 thematic chapters begins with an overview, concludes with a summary, and balances an explanation of the important principles of education law with actual court decisions to illuminate those issues most relevant for educational policy and practice. This updated and expanded Sixth Edition includes: Revision of case law, education policy, and citations to reflect the most recent decisions and developments in the field. Cases and commentary on key topics such as constitutional rights of students in public schools, school discipline, safety, and zero tolerance policies, school choice and parental rights claims, the regulation of charter schools and home-based education, cyberbullying and the regulation
