Fowler: My Autobiography is a personal and honest account of a phenomenal life in football by goal-poacher Robbie Fowler. Pronounced as the greatest goal scoring talent since Jimmy Greaves, seventeen-year old Robbie Fowler was immediately catapulted to fame and fortune. The thin, baby-faced Toxteth lad, who had trampled the same streets as the rioters, was now a millionaire, an idol and inspiration to every kid who kicked a football. Yet his incredible potential was never quite realized. Injuries and persistent rumours of drug abuse and depression meant that though Fowler remains one of the most celebrated of Premiership stars, he never became the world-beater so many predicted. This is a fascinating and unbelievably frank insight into the beautiful game, taking us behind the closed doors of professional football to expose what really happens at both club and international level. This is a truthful and candid account of an incredible career, examining not just the records and the glory, but the low points and the miseries of a footballing life that many people now believe somewhere, somehow went wrong. Brilliance and controversy have stalked Robbie Fowler from his five goal performance in only his second full game for Liverpool, to his snorting of the touchline in the Merseyside derby. In this utterly compelling autobiography, Robbie Fowler looks back on what was, what wasn't and what might have been. This is the story of one of the game's true icons, and the story of the modern game itself.

This book offers the reader an overview of the basic approaches to the theoretical description of low-temperature plasmas, covering numerical methods, mathematical models and modeling techniques. The main methods of calculating the cross sections of plasma particle interaction and the solution of the kinetic

Boltzmann equation for determining the transport coefficients of the plasma are also presented. The results of calculations of thermodynamic properties, transport coefficients, the equilibrium particle-interaction cross sections and two-temperature plasmas are also discussed. Later chapters consider applications, and the results of simulation and calculation of plasma parameters in induction and arc plasma torches are presented. The complex physical processes in high-frequency plasmas and arc plasmas, the internal and external parameters of plasma torches, near-electrode processes, heat transfer, the flow of solid particles in plasmas and other phenomena are considered. The book is intended for professionals involved in the theoretical study of low-temperature plasmas and the design of plasma torches, and will be useful for advanced students in related areas.

A STAND ALONE story in the bestselling SIX PACK RANCH series by New York Times Bestselling Author Vivian Arend ----- Three hurting hearts. Too many secrets. One chance to conquer their fears. Over the past year, Travis Coleman lost the two people he allowed closest to his heart. Both gave him ultimatums—then left. Hell if he needs that kind of pain again. Time to move forward without the friends he thought might save him from his dangerous cravings. When Ashley Sims returns to Rocky Mountain House, her rambling lifestyle isn't all she's hoping to change. Travis snagged a piece of her, and while getting tangled in his issues again might be crazy, she hasn't given up on him. Nine months ago, Cassidy Jones walked away to stop his best friend from making a huge mistake. Temptation lingers, though, and when Travis shows up on his turf accompanied by a sensually uninhibited woman, the combination tosses fuel on the banked fire. Passion flares among the three of them, as hot as the summer days. But are they willing to push the limits, and fight for love? Warning: Dirty fighting, dirty talk, dirtier sex—secrets are coming out. Get ready for ménage a trois and cowboy-on-cowboy action, with ropes and crops and the kind of relentless love strong enough to set a man free. Keywords: Canadian Author, cowboy, western, contemporary, small town For readers who enjoy: Jennifer Ryan, Joan Johnston, Kate Pearce, Linda Lael Miller, Lindsay McKenna, Diana Palmer, Maisey Yates, Vicki Lewis Thompson, Lorelei James.
