This book covers in detail the various aspects of joining materials to form parts. A conceptual overview of rapid prototyping and layered manufacturing is given, beginning with the fundamentals so that readers can get up to speed quickly. Unusual and emerging applications such as micro-scale manufacturing, medical applications, aerospace, and rapid manufacturing are also discussed. This book provides a comprehensive overview of rapid prototyping technologies as well as support technologies such as software systems, vacuum casting, investment casting, plating, infiltration and other systems. This book also: Reflects recent developments and trends and adheres to the ASTM, SI, and other standards Includes chapters on automotive technology, aerospace technology and low-cost AM technologies Provides a broad range of technical questions to ensure comprehensive understanding of the concepts covered

This timely handbook represents the latest thinking in the field of technology and innovation management, with an up-to-date overview of the key developments in the field. The editor provides with a critical, introductory essay that establishes the theoretical framework for studying technology and innovation management The book will include 15-20 original essays by leading authors chosen for their key contribution to the field These chapters chart the important debates and theoretical issues under 3 or 4 thematic headings The handbook concludes with an essay by the Editor highlighting the emergent issues for research The book is targeted as a handbook for academics as well as a text for graduate courses in technology and innovation management

Inventing the Jew follows the evolution of stereotypes of Jews from the level of traditional Romanian and other Central-East European cultures (their legends, fairy tales, ballads, carols, anecdotes, superstitions, and iconographic representations) to that of "high" cultures (including literature, essays, journalism, and sociopolitical writings), showing how motifs specific to "folkloric antisemitism" migrated to "intellectual antisemitism." This comparative perspective also highlights how the images of Jews have differed from that of other "strangers" such as Hungarians, Germans, Roma, Turks.

This text describes the functions that the BIOS controls and how these relate to the hardware in a PC. It covers the CMOS and chipset set-up options found in most common modern BIOSs. It also features tables listing error codes needed to troubleshoot problems caused by the BIOS.
