Christopher de Bellaigue, a former contributor to The Economist, brings to light the fascinating story of one of the great anti-colonial heroes of the twentieth century: Muhammad Mossadegh, the great Iranian leader whose untimely demise resulted in the Islamic Revolution of 1979, and a man who has been demonized, ridiculed, and misunderstood in the West while remaining an icon and an inspiration across the Middle East. Patriot of Persia, a new biography exploring his life and impact, opens a crucial new window into Mossadegh—whose role in the evolution of Iran ’ s political climate cannot be overemphasized—providing a resource that will prove equally invaluable to academics, newshounds, and activists as they struggle to understand Mideast politics, Iran, Ahmadinejad, and the future of the region—and the world.

On 19 August 1953 the British and American intelligence agencies launched a desperate coup against a cussed, bedridden 72-year-old. His name was Muhammad Mossadegh, the Iranian prime minister. To Winston Churchill he was a lunatic, determined to humiliate Britain. To President Eisenhower he was delivering Iran to the Soviets. Mossadegh must go. And so he did, in one of the most dramatic episodes in modern Middle Eastern history. But the countries that overthrew him would, in time, deeply regret it. Mossadegh was one of the first liberals of the Middle East, a man whose conception of liberty was as sophisticated as any in Europe or America. He wanted friendship with the West - not slavish dependence. Here, for the first time, is the political and personal life of a remarkable patriot, written by our foremost observer of Iran. Above all, the life of Muhammad Mossadegh is a warning to today's occupants of Downing Street and the White House, as they commit us all to intervention in a volatile and unpredictable region.

An “ absorbing ” account of the CIA ’ s 1953 coup in Iran—essential reading for anyone concerned about Iran ’ s role in the world today (Harper ’ s Magazine). In August 1953, the Central Intelligence Agency orchestrated the swift overthrow of Iran ’ s democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place. When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini, the shift reverberated throughout the Middle East and the world, casting a long, dark shadow over United States-Iran relations that extends to the present day. In this authoritative new history of the coup and its aftermath, noted Iran scholar Ervand Abrahamian uncovers little-known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries, past and present. Drawing from the hitherto closed archives of British Petroleum, the Foreign Office, and the US State Department, as well as from Iranian memoirs and published interviews, Abrahamian ’ s riveting account of this key historical event will change America ’ s understanding of a crucial turning point in modern United States-Iranian relations. A Choice Outstanding Academic Title “ Not only is this book important because of its presentation of history. It is also important because it might be predicting the future. ” —Counterpunch “ Subtle, lucid, and well-proportioned. ” —The Spectator

“ A valuable corrective to previous work and an important contribution to Iranian history. ” —American Historical Review

Mohammad Mosaddeq is widely regarded as the leading champion of secular democracy and resistance to foreign domination in Iran's modern history. Mosaddeq became prime minister of Iran in May 1951 and promptly nationalized its British-controlled oil industry, initiating a bitter confrontation between Iraq and Britain that increasingly undermined Mossaddeq's position. He was finally overthrown in August 1953 in a coup d'etat that was organized and led by the United States' Central Intelligence Agency. This coup initiated a twenty-five-year period of dictatorship in Iran, leaving many Iranians resentful of the U.S. legacies that still haunt relations between the two countries today. Contents include: "Mosaddeq's Government in Iranian History: Arbitrary Rule, Democracy, and the 1953 Coup" - Homa Katouzian; "Unseating Mosaddeq: The Configuration and Role of Domestic Forces" - Fakhreddin Azimi; "The 1953 Coup in Iran and the Legacy of the Tudeh" - Maziar Behrooz; "Great Britain and the Intervention in Iran, 1953" - Wm. Roger Louis; "The International Boycott of Iranian Oil and the Anti-Mossaddeq Coup of 1953" - Mary Ann Heiss; "The Road to Intervention: Factors Influencing U.S. Policy Toward Iran, 1945-1953" - Malcolm Byrne; "The 1953 Coup d'etat Against Mosaddeq" - Mark J. The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries "An original interpretation that puts Iranian actors where they belong: at center stage."--Michael Doran, Wall Street Journal "For the clearest view of Iran for the last 100 years, this book is it."--Marvin Zonis, author of Majestic Failure: The Fall of the Shah Offering a new view of one of America's most important, infamously strained, and widely misunderstood relationships of the postwar era, this book tells the history of America and Iran from the time the last shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power. This revolution was not, as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and, ultimately, lost the support of every sector of Iranian society. Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events--including the 1953 coup against Prime Minister Mohammad Mossadegh and the rise of Ayatollah Ruhollah Khomeini--significantly revising our understanding of America and Iran's complex and difficult history.

Emphasizing the interaction between political organizations and social forces, Ervand Abrahamian discusses Iranian society and politics during the period between the Constitutional Revolution of 1905-1909 and the Islamic Revolution of 1977-1979. Presented here is a study of the emergence of horizontal divisions, or socio-economic classes, in a country with strong vertical divisions based on ethnicity, religious ideology, and regional particularism. Professor Abrahamian focuses on the class and ethnic roots of the major radical movements in the modern era, particularly the constitutional movement of the 1900s, the communist Tudeh party of the 1940s, the nationalist struggle of the early 1950s, and the Islamic upsurge of the 1970s. In this examination of the social bases of Iranian politics, Professor Abrahamian draws on archives of the British Foreign Office and India Office that have only recently been opened; newspaper, memoirs, and biographies published in Tehran between 1906 and 1980; proceedings of the Iranian Majles and Senate; interviews with retired and active politicians; and pamphlets, books, and periodicals distributed by exiled groups in Europe and North America in the period between 1953 and 1980. Professor Abrahamian explores the impact of socio-economic change on the political structure, especially under the reigns of Reza Shah and Muhammad Reza Shah, and throws fresh light on the significance of the Tudeh party and the failure of the Shah's regime from 1953 to 1978.

Former steel worker Harry Perkins, has, against all the odds, led the Labour Party to a stunning victory at the general election. His manifesto includes the removal of American bases, public control of finance, and the dismantling of the newspaper monopolies. The Establishment is appalled by the prospect, and secretly decides that something must be done. As M15 conspires with the city and the press barons, Perkins the PM finds himself in a no-holds-barred battle for survival.

This is the first full-length account of the CIA's coup d'etat in Iran in 1953—a covert operation whose consequences are still with us today. Written by a noted New York Times journalist, this book is based on documents about the coup (including some lengthy internal CIA reports) that have now been declassified. Stephen Kinzer's compelling narrative is at once a vital piece of history, a cautionary tale, and a real-life espionage thriller.

The recent revolution in Egypt has shaken the Arab world to its roots. The most populous Arab country and the historical center of Arab intellectual life, Egypt is a linchpin of the US's Middle East strategy, receiving more aid than any nation except Israel. This is not the first time that the world has turned its gaze to Egypt, however. A half century ago, Egypt under Nasser became the putative leader of the Arab world and a beacon for all developing nations. Yet in the decades prior to the 2011 revolution, it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time, its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists such as Ayman al-Zawahiri and Mohammed Atta. In *The Struggle for Egypt*, Steven Cook—a Senior Fellow at the Council on Foreign Relations—explains how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. A sweeping account of Egypt in the modern era, it incisively chronicles all of the nation's central historical episodes: the decline of British rule, the rise of Nasser and his quest to become a pan-Arab leader, Egypt's decision to make peace with Israel and ally with the United States, the assassination of Sadat, the emergence of the Muslim Brotherhood, and—finally—the demonstrations that convulsed Tahrir Square and overthrew an entrenched regime. Throughout Egypt's history, there has been an intense debate to define what Egypt is, what it stands for, and its relation to the world. Egyptians now have an opportunity to finally answer these questions. Doing so in a way that appeals to the vast majority of Egyptians, Cook notes, will be difficult but ultimately necessary if Egypt is to become an economically dynamic and politically vibrant society.
