Pierre Boulez is one of the most influential--and controversial--figures in the world of contemporary music. As composer, conductor, and critic, his challenging views of modern developments are lent a special authority by his high standing as an interpreter of classic composers. Orientations will enhance his reputation as a lucid expositor of the modern composer's world. When writing about composing and analysis Boulez forges a new way of thinking about music. He is immensely illuminating about his own compositions. He offers special insight on composers with whom he has been particularly associated as a conductor--including Berlioz, Debussy, Wagner, Mahler, Schoenberg, Stravinsky, and Messiaen. And he writes about performance and orchestras, tackling the question of how to make new music more familiar for the concert-goer. This rich and wide-ranging volume is truly a special resource for everyone wanting to learn more about twentieth-century music.

Music Lessons marks the first publication in English of a groundbreaking group of writings by French composer Pierre Boulez, his yearly lectures prepared for the Collège de France between 1976 and 1995. The lectures presented here offer a sustained intellectual engagement with themes of creativity in music by a widely influential cultural figure, who has long been central to the conversation around contemporary music. In his essays Boulez explores, among other topics, the process through which a musical idea is realized in a full-fledged composition, the complementary roles of craft and inspiration, and the degree to which the memory of other musical works can influence and change the act of creation. Boulez also gives a penetrating account of problems in classical music that are still present today, such as the often crippling conservatism of established musical institutions. Woven into the discussion are stories of his own compositions and those of fellow composers whose work he championed, as both a critic and conductor: from Stravinsky to Stockhausen and Varèse, from Bartók to Berg, Debussy to Mahler and Wagner, and all the way back to Bach. Including a foreword by famed semiologist Jean-Jacques Nattiez, who was for years a close collaborator and friend of the composer, this edition is also enriched by an illuminating preface by Jonathan Goldman. With a masterful translation retaining Boulez' s fierce convictions, cutting opinions, and signature wit, Music Lessons will be an essential and entertaining volume.

Pierre Boulez is arguably the single most influential - and controversial - figure in the world of contemporary music. As composer, conductor and personality, his challenging views of modern developments are lent a special authority by his very high standing as an interpreter

(Amadeus). Pierre Boulez's first piano pieces date from his youth, prior to his studies in Paris with Messiaen, and his subsequent meteoric rise to international acclaim as the leader of the musical avant-garde during the 1950s. His most recent published work is a solo piano piece, *Une page d' éphéméride*, written some sixty years after his first attempts at composition. The piano has remained central to Boulez's creative work throughout his career, and although his renown as a conductor has to some extent overshadowed his other achievements, it was as a performer of his own piano music that his practical gifts first found expression. Peter O'Hagan has given performances of various unpublished piano works by Boulez, including *Antiphonie* from the *Third Sonata* and *Trois Psalmodies*. In this study, he considers Boulez's writing for the piano in the context of the composer's stylistic evolution throughout the course of his development. Each of the principal works is considered in detail, not only on its own terms, but also as a stage in Boulez's ongoing quest to invent radical solutions to the renewal of musical language and to reinvigorate tradition. The volume includes reference to hitherto unpublished source material, which sheds light on his working methods and on the interrelationship between works.
