A postcard or post card is a piece of thick paper or thin cardboard, typically rectangular, intended for writing and mailing without an envelope. Non-rectangular shapes may also be used but are rare. There are novelty exceptions, such as wooden postcards, copper postcards sold in the Copper Country of the U.S. state of Michigan, and coconut "postcards" from tropical islands.

A collection of 100 postcards, each featuring a different and iconic Penguin book jacket. From classics to crime, here are over seventy years of quintessentially British design in one box. In 1935 Allen Lane stood on a platform at Exeter railway station, looking for a good book for the journey to London. His disappointment at the poor range of paperbacks on offer led him to found Penguin Books. The quality paperback had arrived. Declaring that 'good design is no more expensive than bad', Lane was adamant that his Penguin paperbacks should cost no more than a packet of cigarettes, but that they should always look distinctive. Ever since then, from their

Access Free Postcards

original - now world-famous - look featuring three bold horizontal stripes, through many different stylish, inventive and iconic cover designs, Penguin's paperback jackets have been a constantly evolving part of Britain's culture. And whether they're for classics, crime, reference or prize-winning novels, they still follow Allen Lane's original design mantra. Sometimes, you definitely should judge a book by its cover.

A giftable book of 50 postcards featuring Gray Malin's most popular images Gray Malin: 50 Postcards is a deluxe little hardcover book containing 50 removable cards. The postcards feature some of the photographer's most popular images of aerial views, gorgeous beaches, and blue skies festooned with helium balloon messages. An accessibly priced format for Gray's aspirational brand, these

Access Free Postcards

versatile postcards are perfect for those who want to pin Gray's images on inspiration boards, send a piece of snail mail to a friend, or enclose a card with flowers or a gift.

From the bestselling author of *The Shipping News* comes *Postcards*, the tale of the Blood family, New England farmers who must confront the twentieth century -- and their own extinction. As the family slowly disintegrates, its members struggle valiantly against the powerful forces of loneliness and necessity, seeking a sense of home and place forever lost. Loyal Blood, eldest son, is forced to abandon the farm when he takes his lover's life, thus beginning a quintessentially American odyssey of solitude and adventure. Yearning for love, yet forced by circumstance to be always alone, Loyal comes to symbolize the alienation and frustration behind the

American dream.

In Boring Postcards Magnum photographer and postcard enthusiast Martin Parr brought together 160 of the dullest postcards of 1950s, 60s and 70s Britain to make a book that was, contrary to the conceit of its title, both fascinating and extremely funny. It was one of those ideas that seemed so obvious that no one could believe it hadn't been done before, and it caught the public imagination in a big way. In Britain Boring Postcards was discussed everywhere from daytime TV shows to art and design magazines, from local newspapers and radio stations (outraged that their town should be labelled 'boring') to Time magazine. Now Parr has turned his attention to the USA

Access Free Postcards

for a new book of Boring Postcards. Just as before, for a postcard to qualify as sufficiently 'boring', either its composition, its content, or the characters featured must be arguably boring or the photograph must be absent of anything that might conventionally be described as interesting. As the study of postcards becomes a field of academic interest, this book offers more than amusement: as a folk art recording of the non-places and non-events of post-war America, it reveals poignant insights into its social, cultural and architectural values.

This bestselling Hollywood novel by the witty author of *Wishful Drinking* and *Shockaholic* that was made into a movie starring

Meryl Streep and Shirley MacLaine. When we first meet the extraordinary young actress Suzanne Vale, she 's feeling like “ something on the bottom of someone 's shoe, and not even someone interesting. ” Suzanne is in the harrowing and hilarious throes of drug rehabilitation, trying to understand what happened to her life and how she managed to land in a “ drug hospital. ” Just as Fisher 's first film role—the precocious teenager in Shampoo—echoed her own Beverly Hills upbringing, her first book is set within the world she knows better than anyone else: Hollywood. This stunning literary debut chronicles Suzanne 's vivid, excruciatingly funny experiences inside the clinic and as she comes to terms with life in the outside world. Postcards from the Edge is more than a book about stardom and drugs. It is a revealing look at the dangers—and delights—of all our addictions, from
