Registrars from Dalhousie and Saint Mary's will be on hand to answer questions about IB from ...

Detailed instructions lead the user into brief experiments in chemistry.

Alexander MacDonald guides us through his family's mythic past as he recollects the heroic stories of his people: loggers, miners, drinkers, adventurers; men forever in exile, forever linked to their clan. There is the legendary patriarch who left the Scottish Highlands in 1779 and resettled in "the land of trees," where his descendents became a separate Nova Scotia clan. There is the team of brothers and cousins, expert miners in demand around the world for their dangerous skills. And there is Alexander and his twin sister, who have left Cape Breton and prospered, yet are haunted by the past. Elegiac, hypnotic, by turns joyful and sad, No Great Mischief is a spellbinding story of family, loyalty, exile, and of the blood ties that bind us, generations later, to the land from which our ancestors came.

First Published in 1988. Routledge is an imprint of Taylor & Francis, an informa company.

Provides complete coverage of the syllabus requirements. This book offers information on Chemistry for IB Diploma course.

From the same author as the popular first edition, the second edition of this trusted, accessible textbook is now accessible online, anytime, anywhere on Kerboodle. It breaks down content into manageable chunks to help students with the transition from GCSE to A Level study, and has been fully revised and updated for the new A Level specifications for first teaching September 2015. This online textbook provides plenty of examples and practice questions for consolidation of learning, with 'Biology at Work', 'Key Skills in Biology' and 'Study Skills' sections giving many applications of biology throughout. Suitable for AQA, OCR, WJEC and Edexcel.

"I've finally pretty much decided what to write next—a novel based on Nat Turner's rebellion," twenty-six-year-old William Styron confided to his father in a letter he wrote on May 1, 1952. Styron would not publish his Pulitzer Prize–winning The Confessions of Nat Turner until 1967, but this letter undercuts those critics who later attacked the writer as an opportunist capitalizing on the heated racial climate of the late 1960s. From 1943 to 1953, Styron wrote over one hundred letters to William C. Styron, Sr., detailing his adventures, his works in progress, and his ruminations on the craft of writing. In Letters to My Father, Styron biographer James L. W. West III collects this correspondence for the first time, revealing the early, intimate thoughts of a young man who was to become a literary icon. Styron wrote his earliest letters from Davidson College, where he was very much unsure of himself and of his prospects in life. By the last few letters, however, he had achieved a great deal: he had earned a commission in the Marine Corps, survived World War II, published the novel Lie Down in Darkness (1951) and the novella The Long March (1953), and won the Prix de Rome. He had also recently married and was about to return to the United States from an expatriate period in Paris and Rome. The letters constitute a portrait of the artist as a young man. They read like an epistolary novel, with movement from location to location and changes in voice and language. Styron was extremely close to his father and quite open with him. His story is a classic one, from youthful insecurity to artistic self-discovery, capped by recognition and success. There are challenges along the way for the hero—poor academic performance, a syphilis scare, writer's block, temporary frustration in romance. But Styron overcomes these difficulties and emerges as a confident young writer, ready to tackle his next project, the novel Set This House on Fire (1960). Rose Styron, the author's widow, contributes a prefatory memoir of the senior Styron. West has provided comprehensive annotations to the correspondence, and the volume also has several illustrations, including facsimiles of some of the letters, which survive among Styron's papers at Duke University. Finally, there is a selection of Styron's apprentice fiction from the late 1940s and early 1950s. In all of American literature, no other extended series of such letters—son to father—exists. Letters to My Father offers a unique glimpse into the formative years of one of the most admired and controversial writers of his time.

This comprehensive and up-to-date encyclopedia on human rights issues from 1945 to the present includes more than 400 entries on incidents and violations, instruments and initiatives, countries, and human rights activities. Its scope is global, and its purpose is both to sum up the accomplishments in human rights in our time and also to point out and describe the violations that continue to be perpetrated around the world. Entries cover major issues; incidents and violations; concepts and terms; activists; organizations; and human rights instruments. Entries cover more than 50 countries, from Afghanistan to Yugoslavia. Entries conclude with suggestions for further readings; and a timeline of significant dates since 1945 and the text of the Universal Declaration of Human Rights are also included.
