Sams Teach Yourself the Internet in 24 Hours, Third Edition, gets you quickly connected to the Internet. Learn to send and receive e-mail, find and browse Web sites, read and post to newsgroups, and apply the Internet to your everyday office and home life. Written in a straightforward, easy-to-understand style, the book avoids confusing jargon at all costs, clearly telling you just what you need to know in order to become productive.

Sams Teach Yourself Web Publishing with HTML and CSS in One Hour a Day, Sixth Edition is the latest edition of the original worldwide bestseller. The entire book has been thoroughly revised and refined to include new detailed coverage of HTML5, the next major revision of the core language of the World Wide Web, HTML. Work on the HTML5 specification is still ongoing, but parts of HTML5 are already being implemented in new versions of Microsoft Internet Explorer, Mozilla Firefox, Safari and Opera.

Explains what XML Web services are, where to apply Web services technology, the infrastructure behind .NET and XML Web services, and the programming model used to create Web services.

Learn how to use C# for Internet programming with the hands-on techniques and clear explanations. This book discusses some C# features that allow rapid development of solutions such as garbage collection, simplified type declarations, and scalability support. The book explains key concepts in a simple and practical manner. Web Forms and Web Controls usher in an elegant way to make dynamic Web pages. The book covers these topics with how-to code examples and projects. One of the newest developments in Internet programming is the use of XML and the SOAP communication protocol. .NET Web Services harness these two technologies, and is covered in later sections of the book.

Access Free Sams Teach Yourself The Internet In 24 Hours 6e Ned Snell

Offers a step-by-step approach to creating Web pages, conducting business on the Internet, sending and receiving e-mail, and locating information on the Internet.

Accompanied by a CD-ROM containing Bounds Checker from NuMega Technologies, Internet Explorer, and examples from the book, a valuable resource instructs users how to effectively use Visual C++++ 6 in a Windows environment using such technologies as ActiveX, Threads, Property Sheets, Views, and Databases. Original. (Beginner).

Offers advice on getting connected, browsing the Web, protecting privacy, sending and receiving email, receiving and posting messages to a newsgroup, chatting online, and voice and video conferencing

The Internet has become an essential part of everyday life in business education, and the home. Yet the complexity and vast scope of the Internet can still intimidate all but the most experienced user, and it's becoming even more complex and powerful every day. Sams Teach Yourself the Internet in 24 Hours steps the reader through everything he or she needs to know in order to quickly get connected to the Internet, send and receive e-mail, find and browse Web sites, read and post to newsgroups, and apply the Internet to their everyday office and home life. Written in a straightforward, easy-to-understand style, the book avoids confusing jargon at all costs, clearly telling the reader just what they need to know in order to become productive.
