A kiss is just the beginning... Pinterest Perfect. Or so Annie Carson's life appears on her popular blog. Reality is ... messier. Especially when it lands her back in one-cow town Brightwater, California, and back in the path of the gorgeous six-foot-four reason she left. Sawyer Kane may fill out those Wranglers, but she won't be distracted from her task. Annie just needs the summer to spruce up and sell her family's farm so she and her young son can start a new life in the big city. Simple, easy, perfect. Sawyer has always regretted letting the first girl he loved slip away. He won't make the same mistake twice, but can he convince beautiful, wary Annie to trust her heart again when she's been given every reason not to? And as a single kiss turns to so much more, can Annie give up her idea of perfect for a forever that's blissfully real?

Written by pfSense co-founder Chris Buechler and pfSense consultant Jim Pingle, this Definitive Guide to pfSense covers installation and basic configuration through advanced networking and firewalling with the popular open source firewall and router distribution. This book is designed to be a friendly step-by-step guide to common networking and security tasks, plus a thorough reference of pfSense's capabilities. The book covers hardware and system planning, installation and upgrades, backups, firewalling fundamentals, port forwarding and Network Address Translation, bridging, Virtual LANs (VLAN), Multi-WAN, Virtual Private Networks (VPN) using IPsec, PPTP, and OpenVPN, traffic shaping, load balancing, wireless networking and captive portal setups, redundant firewalls and High Availability, system monitoring, logging, traffic analysis, sniffing, packet capturing, troubleshooting, and software package and third-party software installations and upgrades.

Find out why her food testers celebrate these all-too-often occasions in Stir, Laugh, Repeat. Following her passion for cooking and in hot pursuit of just the right taste, Martha Cheves composed one hundred recipes for cooks of all ages that are sure to satiate appetites of any kind. Try her quick and easy bacon, egg, and cheese mini pies for breakfast; rabbit food sandwich for a healthy, take-to-the-office lunch; mustard pork chops for a zesty twist that still satisfies the meat and potato man; and whip up her renown banana puddin' as a sweet end to a satisfying day. Sprinkled amongst timeless southern dishes are practical tips to help any beginner baker cook like a pro while learning from Martha's tales of kitchen woes. Feast on Stir, Laugh, Repeat today and let your experimental imagination sizzle with delight as you try your hand at Martha's suggested variations.

Welcome to the proceedings of the 8th European Conference on Computer - sion! Following a very successful ECCV 2002, the response to our call for papers was almost equally strong – 555 papers were submitted. We accepted 41 papers for oral and 149 papers for poster presentation. Several innovations were introduced into the review process. First, the n- ber of program committee members was increased to reduce their review load. We managed to assign to program committee members no more than 12 papers. Second, we adopted a paper ranking system. Program committee members were asked to rank all the papers assigned to them, even those that were reviewed by additional reviewers. Third, we allowed authors to respond to the reviews consolidated in a discussion involving the area chair and the reviewers. Fourth, thereports,thereviews,andtheresponsesweremadeavailabletotheauthorsas well as to the program committee members. Our aim was to provide the authors with maximal feedback and to let the program committee members know how authors reacted to their reviews and how their reviews were or were not re?ected in the ?nal decision. Finally, we reduced the length of reviewed papers from 15 to 12 pages. ThepreparationofECCV2004wentsmoothlythankstothee?ortsotthe- ganizing committee, the area chairs, the program committee, and the reviewers. We are indebted to Anders Heyden, Mads Nielsen, and Henrik J. Nielsen for passing on ECCV traditions and to Dominique Asselineau from ENST/TSI who kindly provided his GestRFIA conference software. We thank Jan-Olof Eklundh and Andrew Zisserman for encouraging us to organize ECCV 2004 in Prague.

This book is a comprehensive primer to both traditional and emerging E-Commerce technologies. Students with no prior technical knowledge will be able to grasp complex topics such as networking, Internet security, Web languages and other important subjects in a way that illustrates their use through case studies and practice by completing Web projects.

A waitress and part-time director of a women's ministry, Harriet Bisset--once armed with a gutter mouth and a penchant for alcohol--meets her match in the new church consultant who rides into town on a motorcycle.

Sarah's Quilt, the long-awaited sequel to These Is My Words, continues the dramatic story of Sarah Agnes Prine. Beloved by readers and book clubs from coast to coast, These Is My Words told the spellbinding story of an extraordinary pioneer woman and her struggle to make a home in the Arizona Territories. Now Sarah returns. In 1906, the badlands of Southern Arizona Territory is a desolate place where a three-year drought has changed the landscape for all time. When Sarah's well goes dry and months pass with barely a trace of rain, Sarah feels herself losing her hold upon the land. Desperate, Sarah's mother hires a water witch, a peculiar desert wanderer named Lazrus who claims to know where to find water. As he schemes and stalls, he develops an attraction to Sarah that turns into a frightening infatuation. And just when it seems that life couldn't get worse, Sarah learns that her brother and his family have been trapped in the Great San Francisco Earthquake of 1906. She and her father-in-law cannot even imagine the devastation that awaits them as they embark on a rescue mission to the stricken city. Sarah is a pioneer of the truest spirit, courageous but gentle as she fights to save her family's home. But she never stops longing for the passion she once knew. Though her wealthy neighbor has asked her to wed, Sarah doesn't entirely trust him. And then Udell Hanna and his son come riding down the dusty road. . . .

Draw, colour and create all your favourite subjects by following these simple instructions and fun step-by-step examples. Hundreds of ideas combined with expert advice on technique and materials ensure professional-looking results.

A coverage of the Transputer Development System (TDS), an integrated programming environment which facilitates the programming of transputer networks in OCCAM. The book explains transputer architecture and the OCCAM programming model and incorporates a TDS user guide and reference manual.
