In *See No Evil*, one of the CIA's top field officers of the past quarter century recounts his career running agents in the back alleys of the Middle East. In the process, Robert Baer paints a chilling picture of how terrorism works on the inside and provides compelling evidence about how Washington politics sabotaged the CIA's efforts to root out the world's deadliest terrorists. On the morning of September 11, 2001, the world witnessed the terrible result of that intelligence failure with the attack on the World Trade Center and the Pentagon. In the wake of those attacks, Americans were left wondering how such an obviously long-term, globally coordinated plot could have escaped detection by the CIA and taken the nation by surprise. Robert Baer was not surprised. A twenty-one-year veteran of the CIA's Directorate of Operations who had left the agency in 1997, Baer observed firsthand how an increasingly bureaucratic CIA lost its way in the post-cold war world and refused to adequately acknowledge and neutralize the growing threat of Islamic fundamentalist terror in the Middle East and elsewhere. A throwback to the days when CIA operatives got results by getting their hands dirty and running covert operations, Baer spent his career chasing down leads on suspected terrorists in the world's most volatile hot spots. As he and his agents risked their lives gathering intelligence, he watched as the CIA reduced drastically its operations overseas, failed to put in place people who knew local languages and customs, and rewarded workers who knew how to play the political games of the agency's suburban Washington headquarters but not how to recruit agents on the ground. *See No Evil* is not only a candid memoir of the education and disillusionment of an intelligence operative but also an unprecedented look at the roots of modern terrorism. Baer reveals some of the disturbing details he uncovered in his work, including: * In 1996, Osama bin Laden established a strategic alliance with Iran to coordinate terrorist attacks against the United States. * In 1995, the National Security Council intentionally aborted a military coup d'etat against Saddam Hussein, forgoing the last opportunity to get rid of him. * In 1991, the CIA intentionally shut down its operations in Afghanistan and Saudi Arabia, and ignored fundamentalists operating there. When Baer left the agency in 1997 he received the Career Intelligence Medal, with a citation that says, "He repeatedly put himself in personal danger, working the hardest targets, in service to his country." *See No Evil* is Baer's frank assessment of an agency that forgot that "service to country" must transcend politics and is a forceful plea for the CIA to return to its original mission—the preservation of our national sovereignty and the American way of life.

See No Evil is the astonishing and controversial memoir from one of the CIA's top field officers of the past quarter century. Robert Baer recounts his career as a ground soldier in the CIA's war on terrorism, running agents in the back alleys of the Middle East, with blistering honesty. He paints a chilling picture of how terrorism works on the inside and provides compelling evidence about how Washington sabotaged the CIA's efforts to root out the world's deadliest terrorists. *See No Evil* is an unprecedented examination of the roots of modern terrorism and the CIA's failure to acknowledge and neutralise the growing fundamentalist threat, and an engrossing memoir of Baer's education as an intelligence operative. *See No Evil* includes revelations about the strategic alliance Osama bin Laden forged with Iran in 1996 to mastermind terrorist attacks on the United States and elsewhere, about the planned coup d'etat against Saddam Hussein and how it was aborted by the National Security Council, and about the CIA's disastrous decision in 1991 to shut down its operations in Afghanistan and Saudi Arabia, ignoring the fundamentalists working in those countries. An extraordinary testimony that has become even more vital and damning since the events of 9/11 and the subsequent War on Iraq.

The author discusses his twenty-year career as a CIA operative in the Middle East and examines how the agency's abandonment of its original mission resulted in a failure to acknowledge the growing threat of militant Islamic terrorist groups.

The author discusses his twenty-year career as a CIA operative in the Middle East and examines how the agency's abandonment of its original mission resulted in a failure to acknowledge the growing threat of militant Islamic terrorist groups.

He's the last thing you'll ever see... Seven-feet-tall. Four hundred pounds. A blood-crusted, rusty steel plate screwed into his skull. But perhaps the most terrifying thing about reclusive psychopath Jacob Goodnight are the razor-sharp nails on his forefingers, the ones that circle around his victims' eyes just before he takes them. Holed up within the long-abandoned Blackwell Hotel, nine floors of hidden passageways and two-way mirrors that once acted as a playground for the rich and privileged, Jacob's disturbing gaze is now fixed on Kira, Christine, Michael, Tye, Zoe, Melissa, Richie, and Russell -- eight delinquents hoping to shave time off their county jail sentences by performing community service and restoring the building -- and detention officer Frank Williams, the former cop who put a bullet in Jacob's head four years prior. Goodnight sees the sins in their eyes -- he always does -- and he's going to pluck them out, one by one... See No Evil, a violent, bloody account of madness and revenge, is a novelization of the terrifying new thriller from WWE Films and Lionsgate, starring WWE Raw Superstar Kane.

This spellbinding haunted-house story takes place within the confines of a grand London mansion, a place where shadowy characters are always coming and going, almost like ghosts. But when twelve-year-old Nettie's beloved tutor disappears, the cloistered yet savvy girl must pull her head out of the sand and find out why. In her search, she makes a friend and turns detective, coming apart yet coming alive as she discovers deeply disturbing things about her father and how he funds her family's extravagant lifestyle – through human trafficking. The award-winning author's new novel is a rich and riveting story about the dangers of turning a blind eye to unsightly events and unsavory possibilities.

My home-decorating business was booming, thanks to that new account for model homes in a posh neighborhood. Of course, it didn't seem quite so posh when I came face-to-face with a man escaping the scene of his crime—a murder right next door to the house I was decorating. Now my life's on the line until the police find the murderer, and I'm guarded 24/7 by my panicky roommates and the overprotective owner of the housing development, Gray Edwards. As a believer, I know help truly comes from the Lord, but I sure wish He'd sent someone less handsome.

Liberals take great pride in their supposed open-mindedness. Yet when it comes to hot-button issues like radical Islam, global warming, and abortion, “open-minded” liberals go to great lengths to discredit and suppress the ideas of their opponents. Breitbart senior editor Joel Pollak exposes the nineteen key ideas that today's liberals are desperate to suppress, revealing the blatant hypocrisy of left-wing leaders and pundits who preach tolerance but practice intolerance.

This volume examines official Soviet concentration camp literature from the early 1920s through the mid-1960s. It probes the evolution of this literature, the totalitarian thinking that inspired it, and the scandalous role played by Russian literary intellectuals who created it.

Despite all the damaging evidence to the contrary, deputy district attorney Julia Chandler firmly believes her niece Emily is innocent of the grisly slaying of her stepfather and hires private detective Connor Kincaid, a man with a grudge against her, to investigate the case. Original.
