The primary purpose of an introductory paragraph is to pique the interest of your reader and identify the topic and purpose of the essay. It often ends with a thesis statement. You can engage your readers right from the start through a number of tried-and-true ways. Posing a question, defining the key term, giving a brief anecdote, using a playful joke or emotional appeal, or pulling out an interesting fact are just a few approaches you can take.

Six-Way Paragraphs, a three-level series, teaches the basic skills necessary for reading factual material through the use of the following six types of questions: subject matter, main idea, supporting details, conclusions, clarifying devices, and vocabulary in context.

Six-Way Paragraphs, a three-level series, teaches the basic skills necessary for reading factual material through the use of the following six types of questions: subject matter, main idea, supporting details, conclusions, clarifying devices, and vocabulary in context.

Six-Way Paragraphs in the Content Areas teaches the essential skills and techniques needed to organize, understand, and apply information in four general categories: the humanities, social studies, science, and mathematics.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right reasons—but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Paragraph Development helps students edit their own writing for clarity and accuracy and offers a three-phase strategy for building writing skills through planning, writing, and revising. The approach in each chapter is direct and functional: a model is provided and graphically explained, then students use the model to write their own paragraphs.-- Offers controlled information-transfer exercises, a choice of writing topics, and peer consultation and writing-evaluation methods.

Six-Way Paragraphs in the Content Areas teaches the essential skills and techniques needed to organize, understand, and apply information in four general categories: the humanities, social studies, science, and mathematics.

Deceptively simple and surprisingly addictive, *Not Quite What I Was Planning* is a thousand glimpses of humanity—six words at a time. One Life. Six Words. What's Yours? When Hemingway famously wrote, "For Sale: baby shoes, never worn," he proved that an entire story can be told using a half dozen words. When the online storytelling magazine SMITH asked readers to submit six-word memoirs, they proved a whole, real life can be told this way too. The results are fascinating, hilarious, shocking, and moving. From small sagas of bitter-sweet romance ("Found true love, married someone else") to proud achievements and stinging regrets ("After Harvard, had baby with crackhead"), these terse true tales relate the diversity of human experience in tasty bite-sized pieces. From authors Jonathan Lethem and Richard Ford to comedians Stephen Colbert and Amy Sedaris, to ordinary folks around the world, everyone has a six-word story to tell.
