and viscerally moving—this impressive debut novel heralds the arrival of an extremely talented writer. —Jodi Picoult, *New York Times* bestselling author of *Leaving Time* Destined to be a book club favorite, a heart-wrenching debut about two people who must decide how much they're willing to sacrifice for love. Mara Nichols is a successful lawyer, devoted wife, and adoptive mother who has received a life-shattering diagnosis. Scott Coffman, a middle school teacher, has been fostering an eight-year-old boy while the boy's mother serves a jail sentence. Scott and Mara both have five days left until they must say good-bye to the ones they love the most. Through their stories, Julie Lawson Timmer explores the individual limits of human endurance and the power of relationships, and shows that sometimes loving someone means holding on, and sometimes it means letting go.

Beckett Taylor is a murderer. His calling, his craft are destruction and intimidation--whether he wants it that way now or not. He left Poughkeepsie to keep his brothers safe, to keep Eve safe. Set up with happy lives to live, they're better off without him, right? But all his willpower crumbles when he hears his brother Blake's frantic voice on the phone. An unknown enemy has moved in on his old territory, and Livia's been taken. In an instant, Beckett knows it will take an attack only he and Eve can execute to bring her back. All his self-imposed embargoes are torn to shreds, perhaps along with the new man he's struggled to become. "Brother, call Eve. I'll be there soon." In this emotional and action-packed sequel to *Poughkeepsie*, Debra Anastasia conjures a tale of love at its most raw and ragged. With Beckett and Eve, how could we expect anything less? But even when it's messy, not magical, true love perseveres. Real love finds a way--for better or worse until death does part.

find the last polar bears. After a treacherous journey on HMS Unsinkable, they reach Walrus Bay and the fun really starts. Howling wolves and terrible snowstorms delay the start of their trek and when they're on the way their tent is blown away by the fierce winds. They struggle on, hungry and cold to the top of Great Bear Ridge where they see the polar bears at last.

A richly textured novel tells a story of sex and longing, love and loss, and of the deceit that can lie at the heart of family relationships. "Each chapter has the seductive aura of a finely crafted story. *Liars and Saints* is instructive and bittersweet and yet somehow never nostalgic" (Los Angeles Times). Set in California, *Liars and Saints* follows four generations of the Catholic Santerre family from World War II to the present. In a family driven as much by jealousy and propriety as by love, an unspoken tradition of deceit is passed from generation to generation. When tragedy shatters their precarious domestic lives, it takes astonishing courage and compassion to bring them back together. By turns funny and disturbing, irreverent and profound, *Liars and Saints* is a masterful display of Maile Meloy's prodigious gifts and of her penetrating insight into an extraordinary American family and into the nature of human love. "Meloy may be the first great American realist of the twenty-first century: The Santerres aren't real but they feel like they are, and the reader will not soon forget them" (The Boston Globe).

Community Resources for Older Adults: Programs and Services in an Era of Change, Fourth Edition, by Robbyn Wacker and Karen Roberto, provides an in-depth review of policy and programs for the "aging network," answering such key questions as "How have programs for older adults evolved?" "Who uses these resources?" "How are they delivered?" and "What challenges do service providers face in meeting the needs of the aging baby-boom generation?" To give students the foundational knowledge they need to meet the needs of their older clients, the authors provide a theoretical framework for understanding the forces that shape older adults' likelihood to seek assistance, include in-depth reviews of the current body of empirical literature in each program area, and discuss the challenges programs and services will face in the future.
