In this book Richard Palliser provides in-depth coverage of three of the most dangerous set-ups available to White after 1 d4: The Colle-Zukertort, the Barry, and the 150 attacks.

An easy-to-learn repertoire for the chessboard assassin

Everyman Chess are delighted to present two further offerings from their original and best-selling Starting Out opening series. The Classical Sicilian is one of Black’s most popular and highly regarded opening choices against 1 e4, and it’s been a favourite of such greats as Vladimir Kramnik, Alexei Shirov and Vishy Anand. White has a number of aggressive ways to battle against the Classical: the fashionable Richter-Rauzer Attack; Bobby Fischer’s favourite, the Sozin Attack; and finally the

wild Velimirovic Attack, and no work on the Classical would be complete without a study of these fascinating variations. The Grand Prix Attack is one of White's most aggressive ways of fighting the Sicilian. It leads to a sharp, complex battle from the very beginning, and White's play is characterized by its lightning attacks against the black king. The opening became a powerful weapon to use in the cut and thrust of weekend tournament chess, where victory is everything and draws are not enough. It steadily became more popular and even gained the seal of approval from some of the world's elite such as the UK's top two Grandmasters, Nigel Short and Michael Adams, who have both utilized it with success. Everyman Chess's Starting Out series has firmly established itself as the leading guide to studying openings for up-and-coming players. These books are distinguished by their easy-to-read layout, the lucid explanations of the fundamentals, and the abundance of notes, tips and warnings to help the reader absorb vital ideas. Starting Out opening books are ideal for enthusiastic chess players who have little experience of the openings in question and who wish to appreciate the essential principles behind them. *User-friendly design to help readers absorb ideas *Concentrates on the fundamental principles of the openings *Ideal for improvers, club players and tournament players

Questions of all chess players are answered by the greatest legends of the game.

Cyrus Lakdawala presents an aggressive opening repertoire, based on the Veresov

Opening. This repertoire is perfect for those who have little time for study but enjoy taking opponents out of their comfort zones.

The Colle is a solid, reliable system of development based on the popular opening move 1 d4. One of its major advantages is that although the system is very easy to learn and play, it leads to exciting middlegame positions where White often launches a violent attack against Black's king. The Colle is a particular favourite amongst club players, but is also seen at grandmaster level; perhaps its most well-known exponents are the former World Championship Candidate Artur Yusupov and the twice World Junior Champion Shakhriyar Mamedyarov. This book is a further addition to Everyman's best-selling Starting Out series, which has been acclaimed for its original approach to tackling chess openings. International Master Richard Palliser examines the fundamentals of the Colle, elaborating on the crucial early moves and ideas for both sides in a way that is often neglected in other texts. The reader is helped throughout with a plethora of notes, tips and warnings highlighting the vital characteristics of the Colle and of opening play in general. Starting Out: The Colle is a perfect guide for improving players and those new to this opening. Written by a Colle expert Covers everything you need to know after 1 d4 d5 Concentrates on the basic principles of the opening

In this innovative book, Grandmaster and renowned endgame expert Glenn Flear concentrates on the very basics of pawn endings. He outlines the key principles

and rules, and demonstrates how these work in practical examples.

Explains the strategies and tactics of the Ruy Lopez Exchange. Using model games for both White and Black, this book provides a schooling in the key ideas of both the fashionable lines and the more offbeat variations. This book is useful for club and tournament players.

Sick of defending with Black? Never found a reliable way to fight for the initiative when White plays 1 d4? Allow Grandmaster Aveskulov to assist. He has put together a sound but ultra-aggressive repertoire based on gambits that have proved their worth in grandmaster play over many years. The Benko Gambit is dreaded by many 1 d4 players. Black gets very active piece-play, and even if White reaches a pawn-up endgame, he is often shocked to find he is worse due to Black's intense positional pressure! If White avoids the Benko, that's when we hit him with the Blumenfeld, sacrificing a pawn to set up a strong pawn-centre and attacking chances. Aveskulov examines all of White's options and move-orders after 1 d4 Nf6, and shows an aggressive reply to each of them. He is never willing to take existing theory on faith, and throughout the book presents an extraordinary wealth of new analysis and ideas. He also explains typical plans in depth, so you will always know how to turn the screw once you have your opponent on the run.
