The #1 New York Times bestselling biography of how Steve Jobs became the most visionary CEO in history. Becoming Steve Jobs breaks down the conventional, one-dimensional view of Steve Jobs that he was half-genius, half-jerk from youth, an irascible and selfish leader who slighted friends and family alike. Becoming Steve Jobs answers the central question about the life and career of the Apple cofounder and CEO: How did a young man so reckless and arrogant that he was exiled from the company he founded become the most effective visionary business leader of our time, ultimately transforming the daily life of billions of people? Drawing on incredible and sometimes exclusive access, Schlender and Tetzeli tell a different story of a real human being who wrestled with his failings and learned to maximize his strengths over time. Their rich, compelling narrative is filled with stories never told before from the people who knew Jobs best, including his family, former inner circle executives, and top people at Apple, Pixar and Disney, most notably Tim Cook, Jony Ive, Eddy Cue, Ed Catmull, John Lasseter, Robert Iger and many others. In addition, Schlender knew Jobs personally for 25 years and draws upon his many interviews with him, on and off the record, in writing the book. He and Tetzeli humanize the man and explain, rather than simply describe, his behavior. Along the way, the book provides rich context about the technology revolution we've all lived through, and the ways in which Jobs changed our world. A rich and revealing account, Becoming Steve Jobs shows us how one of the most colorful and compelling figures of our times was able to combine his unchanging, relentless passion with an evolution in management style to create one of the most valuable and beloved companies on the planet.

Fortune magazine proclaimed Jobs ' the CEO of the decade ' . Harvard Business Review called him ' the world ' s best-performing CEO ' . And the Wall Street Journal praised him as a ' Person of the Decade ' . The longtime CEO of Apple, Inc., which he co-founded in 1976, Steve Jobs stepped down from that role in August 2011, bringing an end to one of the greatest, most transformative business careers in history. Over the years, Jobs has given countless interviews to the media, explaining what he calls ' the vision thing ' — his unmatched ability to envision, and successfully bring to the marketplace, consumer products that people find simply irresistible. Drawn from more than three decades of media coverage — print, electronic, and online — this book serves up the best, most thought-provoking insights spoken by Steve Jobs: more than two hundred quotations that are essential reading for everyone who seeks innovative solutions applicable to their business, regardless of size. It ' s the perfect gift or reference item for everyone interested in this icon.

A riveting biography of the groundbreaking innovator who was a giant in the worlds of computing, music, filmmaking, design, smart phones, and more. A finalist for the YALSA Excellence in Nonfiction Award! "Your time is limited. . . . have the courage to follow your heart and intuition." —Steve Jobs From the start, his path was never predictable. Steve Jobs was given up for adoption at birth, dropped out of college after one semester, and at the age of twenty, created Apple in his parents' garage with his friend Steve Wozniack. Then came the core and hallmark of his genius—his exacting moderation for perfection, his counterculture life approach, and his level of taste and style that pushed all boundaries. A devoted husband, father, and Buddhist, he battled cancer for over a decade, became the ultimate CEO, and made the world want every product he touched, from the Macintosh to the iPhone, from iTunes and the iPod to the Macbook. Critically acclaimed author Karen Blumenthal takes us to the core of this complicated and legendary man while simultaneously exploring the evolution of computers. Framed by Jobs' inspirational Stanford commencement speech and illustrated throughout with black and white photos, this is the story of the man who changed our world. A frank, smart and captivating memoir by the daughter of Apple founder Steve Jobs. Born on a farm and named in a field by her parents—artist Chrisann Brennan and Steve Jobs—Lisa Brennan-Jobs ' s childhood unfolded in a rapidly changing Silicon Valley. When she was young, Lisa ' s father was a mythical figure who was rarely present in her life. As she grew older, her father took an interest in her, ushering her into a new world of mansions, vacations, and private schools. His attention was thrilling, but he could also be cold, critical and unpredictable. When her relationship with her mother grew strained in high school, Lisa decided to move in with her father, hoping he ' d become the parent she ' d always wanted him to be. Small Fry is Lisa Brennan-Jobs ' s poignant story of childhood and growing up. Scrappy, wise, and funny, young Lisa is an unforgettable guide, marveling at the particular magic of growing up in this family, in this place and time, while grappling with her feelings of illegitimacy and shame. Part portrait of a complex family, part love letter to California in the seventies and eighties, Small Fry is an enthralling story by an insightful new literary voice.
