Sharing secrets and stories, tales from the track, and insights into her personal life, Danica reflects on her extraordinary rise from a ten-year-old go-kart champion to the most successful woman in the history of American racing. Danica Patrick's life moves at 220 mph. She drives every race and lives every day like she has something to prove—and she does. As a 5-foot 2-inch, 100-pound woman, she had to qualify a little quicker and race a little faster than the boys—just to earn the respect she would otherwise be given if she weren't the "girl on the track, driving the princess mobile." But you don't get to be an IndyCar driver without talent and determination. Danica is living proof that if you work hard and aim high, you can do whatever you set your mind to, that you can rise to any challenge, and that what makes you different is what makes you great. An inspiration to all, Crossing the Line offers Danica's unique perspective on how to compete in life, how to stand out, and how to get the respect and attention you deserve.

Very few in the history of the church have not struggled with the dogma of the Trinity. Those who have not dismissed it as incomprehensible gibberish have found it a battlefield for division and misunderstanding. Even Christians, who adhere to the faith of the Creeds, have often found such dogma difficult to grasp. Richard of Saint Victor, a twelfth-century Scottish monk and Prior in the Abbey of Saint Victor, is emblematic in this struggle: "I have often read that there is . . . [only] one God . . . I have also read . . . that he is one and triune . . . But I do not remember having read anything on the evidences for these assertions." Richard's theological response stems from a profoundly mystical life of prayer, which, in the Spirit, seeks to involve the mind, in continuation with the great Augustinian and Anselmian tradition. Ultimately, he presents a trinitarian model, intelligible to a Western context but which could also awake admiration from Greek theologians. Today Richard's dogmatics could represent a bridge for dialogue between different traditions. For the first time this theological masterpiece is being made available, unabridged, in English to allow a broader theological public to benefit from Richard's accomplishments. The translation offered here attempts to provide a clear and flowing text, while remaining as literally faithful as possible to the original Latin.
