Switzerland: Update on the new integration requirements ...

In a nutshell, the new law provides for a certain level of integration in Switzerland as a prerequisite for obtaining and retaining a Swiss permit. To measure the level of integration, authorities may ask for evidence including but not limited to proof of official Swiss language skills. Non-Swiss nationals applying for a C-permit were previously already subject to language requirements (with only a few exceptions).

This book, first published in 1985, presents a comprehensive analysis of immigration policy in Europe. Six representative countries are looked at in detail: Sweden, Holland, Britain, France, West Germany and Switzerland. All have experienced large-scale postwar immigration and exemplify different policy responses: the 'guestworker' system in Germany and Switzerland; policies aiming at permanent settlement in Britain and Sweden; intermediate policies in France and Holland. Britain, France and Holland are also countries where there has been substantial immigration

from ex-colonies. The book looks at the size and composition of immigration to each country, its history, the economic and social background to immigration, its regulation and policy measures and their effects on immigrants. The second part of the book provides a comparative analysis of the different immigration policies and the reasons for them; changes in immigration policy; the different forms of regulation and control, housing, education, and social welfare provisions.

With more than 20 percent, Switzerland is one of the countries with the largest foreign population. Since 1970 the government has tried to manage the flows of migrants in the hope of reconciling a chronic excess demand for labor with mounting

pressures from nationalistic groups to control the level of foreign population. A policy of quotas on work permits has been effective in controlling the entry of new workers. Nevertheless, the overall dynamic of the system has led to an ever-increasing share of newcomers not covered by quotas. Because of institutional and economic changes, the outflow did not react to economic incentives as the government expected. Hence, at the beginning of the 21st century, the link between the instruments of immigration policy and its goal has become very weak and the level of foreign population is at an all time high. However, a new era has begun with an agreement on free mobility with European Union and European Free Trade Area (EFTA) countries.
