Looks at the development of the Black American middle class, discusses salary, discrimination, and considers Black mobility, standards of living, and the effects of changing economic conditions

In their own words, the subjects of this book present a rich portrait of the modern black middle-class, examining how cultural consumption is a critical tool for enjoying material comforts as well as challenging racism. New York City has the largest population of black Americans out of any metropolitan area in the United States. It is home to a steadily rising number of socio-economically privileged blacks. In Black Privilege Cassi Pittman Claytor examines how this economically

Behavioral Biology experiences Black Studies, advantaged group experiences privilege, having credentials that grant them access to elite spaces and resources with which they can purchase luxuries, while still confronting persistent anti-black bias and racial stigma. Drawing on the everyday experiences of black middle-class individuals, Pittman Claytor offers vivid accounts of their consumer experiences and cultural flexibility in the places where they live, work, and play. Whether it is the majority white Wall Street firm where they're employed, or the majority black Baptist church where they worship, questions of class and racial identity are equally on their minds. They navigate divergent social worlds that demand, at times, middle-class sensibilities, pedigree, and cultural acumen; and

at other times pride in and connection with other blacks. Rich qualitative data and original analysis help account for this special kind of privilege and the entitlements it affords—materially in terms of the things they consume, as well as symbolically, as they strive to be unapologetically black in a society where a racial consumer hierarchy prevails.

"White Men on Race illustrates the way privileged white men think about others; it is a major contribution to our understanding of racial privilege and its denial in our society." —Hernán Vera, author of *Screen Saviors: Hollywood Fictions of Whiteness* Based on the revealing and provocative testimony of approximately

mothers and the strategies they use to raise their children to maintain class status while simultaneously defining and protecting their children ' s " authentically black " identities. Sociologist Dawn Marie Dow shows how the frameworks typically used to research middle-class families focus on white mothers ' experiences, inadequately capturing the experiences of African American middle- and upper-middle-class mothers. These limitations become apparent when Dow considers how these mothers apply different parenting strategies for black boys and for black girls, and how they navigate different expectations about breadwinning and childrearing from the African American community. At the intersection of race,

ethnicity, gender, work, family, and culture, Mothering While Black sheds light on the exclusion of African American middle-class mothers from the dominant cultural experience of middle-class motherhood. In doing so, it reveals the painful truth of the decisions that black mothers must make to ensure the safety, well-being, and future prospects of their children.

"Blue-Chip Black expertly captures the diversity among African Americans, and particularly among African Americans in the middle class. Lacy's exploration of how black families negotiate the murky and sometimes combustible terrains of race, class, and place illuminates the hard work that goes into forming and

claiming a particular identity."—Mary Pattillo-McCoy, author of *Black Picket Fences: Privilege and Peril in a Black Middle Class Neighborhood* "Blue-Chip Black is an important and original book. It represents a terrific contribution to our understanding of the black middle class, and of its relationship to the white middle class and to blacks of other classes. Lacy offers analytical tools needed to capture the impact of neighborhoods and broader contexts on basic social processes, such as boundary work. Blue-Chip Black should become a "must read" for all students of inequality, culture, and race."—Mich è le Lamont, author of *The Dignity of Working Men: Morality and the Boundaries of Race, Class, and Immigration* "Blue-Chip Black is an ambitious

ethnographic intervention into the class analysis of the black population. By focusing on blacks in suburbs, and taking the time to get to know the residents of four different kinds of middle class communities, Karyn Lacy skillfully illuminates the surprising variation in the way her subjects view themselves, one another, and the whites with whom they interact. This is the most systematic examination to date of the everyday life of suburban middle class blacks."—Mitchell Duneier, Department of Sociology, Princeton University "Lacy has given critical race scholars a theoretically groundbreaking comparative analysis of black middle class life in suburban communities. This multi-sited ethnography innovates and renovates analyses of racial

and ethnic belonging among middle class blacks. Lacy provides a rigorous comparative analysis of how demographics and post-civil rights racism activate the cultural logics and strategies employed by members of the black middle class to negotiate their racial identities and ethnic boundaries, and assert class-based identities as they move between segregated and racially stratified social worlds. This book should be required reading for courses on social inequality, contemporary US society, racial and ethnic studies and Black studies."—France Winddance Twine, Visiting Professor of Sociology at The London School of Economics & Political Science, and Professor of Sociology at University of California at Santa Barbara

On Melbenan Drive just west of Atlanta, sunlight falls onto a long row of well-kept lawns. Two dozen homes line the street; behind them wooden decks and living-room windows open onto vast woodland properties. Residents returning from their jobs steer SUVs into long driveways and emerge from their automobiles. They walk to the front doors of their houses past sculptured bushes and flowers in bloom. For most people, this cozy image of suburbia does not immediately evoke images of African Americans. But as this pioneering work demonstrates, the suburbs have provided a home to black residents in increasing numbers for the past hundred years—in the last two

decades alone, the numbers have nearly doubled to just under twelve million. Places of Their Own begins a hundred years ago, painting an austere portrait of the conditions that early black residents found in isolated, poor suburbs. Andrew Wiese insists, however, that they moved there by choice, withstanding racism and poverty through efforts to shape the landscape to their own needs. Turning then to the 1950s, Wiese illuminates key differences between black suburbanization in the North and South. He considers how African Americans in the South bargained for separate areas where they could develop their own neighborhoods, while many of their northern counterparts transgressed racial boundaries, settling in

historically white communities. Ultimately, Wiese explores how the civil rights movement emboldened black families to purchase homes in the suburbs with increased vigor, and how the passage of civil rights legislation helped pave the way for today's black middle class. Tracing the precise contours of black migration to the suburbs over the course of the whole last century and across the entire United States, Places of Their Own will be a foundational book for anyone interested in the African American experience or the role of race and class in the making of America's suburbs. Winner of the 2005 John G. Cawelti Book Award from the American Culture Association. Winner of the 2005 Award for Best Book in North American
