The hauntingly beautiful and determined Rajjo has always been different. As a child in a village in rural Punjab, her gifts mark her as special. Married young and abused, she flees home to discover her path: to use her talents to become a Godwoman, rich and powerful, in the ambiguous world of belief, sensationalism and commerce in the ashram. But when she falls in love, she must once again choose who she wants to be. Will she have the courage to walk the path of love and change her destiny? The Dance of Durga is the story of an unforgettable heroine who rises to command a religious order. It is a powerful drama about human desires, faith, and a woman's journey to find true love.

Feeling initially aimless and out of place in rural Nepal where she accompanied her anthropologist husband for a year of fieldwork, Katharine Bjork Guneratne turned to writing to make sense of her sojourn in the shadow of the Himalaya. The resulting book is both an acute portrait of a village and an intimate account of her struggles to adapt to a different way of life. Like the best cultural travel narratives, In the Circle of the Dance draws on the author's experiences to illuminate both exterior and interior worlds. Bjork's book is in many ways a primer on the realities of fieldwork, from setting up house to participating in the work of the village women to finding ways to communicate across cultural divides. It describes how this outsider achieved a gradual and provisional inclusion in the community, an inclusion represented by her participation in a traditional women's circle dance. The book also depicts the effects of modernization and tourism on a society that remained closed to the West well into this century, while offering comparative insights about wider South Asian cultures. The author's lyrical, frequently moving descriptions of everyday life guide her readers through the stages of her cultural apprenticeship. In the end, as Bjork joins the circle dance, she is a stranger to the community still, but a familiar and welcome one.

"Ambitious in its scope and interdisciplinary in its purview. . . . Without doubt future researchers will want to refer to Hanna's study, not simply for its rich bibliographical sources but also for suggestions as to how to proceed with their own work. Dance, Sex, and Gender will initiate a discussion that should propel a more methodologically informed study of dance and gender."—Randy Martin, Journal of the History of Sexuality

The essays in this dynamic compilation are a testament to dance as a healing art. Widely interdisciplinary in nature and written by women dancers from around the world, they illustrate a rich array of dance practices, cultures, and disciplines and show how this expressive therapy can be both empowering and exhilarating. The women’s narratives all share a deep appreciation for the connection between mental, spiritual, and physical dimensions, offering dance as a transformative power of renewing and rebuilding that bond. Both personal and professional, the stories weave a vivid tapestry of lived experiences and insights, balance, and a community healed by dance.

This book aims at creating a deeper understanding and appreciation of the Indian dance and its cultural environment in India. The book is addressed to the general reader, dancer, and connoisseur, interested in the arts and traditions of India, where regional forms of dance rituals, dance-drama, folk dance, and classical dance forms have existed for centuries as an essential part of sacred rites and festivals, and as a classical art patronised and practised by the royalty.

While many Western scholars have discussed the technical aspects of Balinese music or the traditional contexts for performance, little has been written in Western languages about Balinese discourses on their music. This dissertation seeks to understand the experience of music in Bali according to Balinese voices through an analysis of oral and written dialogues on music, mainly by musicians and dalangs (shadow play puppeteers) from the village of Sukawati, scholars, teachers, administrators and students from the Indonesian College of the Arts (STSI) in the City of Denpasar. The study examines the influence of modernization on the traditional arts and their role in society. A concentration on Balinese discourses enables individual performers and scholars to represent themselves to a greater extent than previously seen in ethnomusicological scholarship, making this study more of a critical discussion among equals than a Western interpretation of 'others'. This approach permits a rare view into contemporary Balinese conceptions and practices of music.

Durga, as this powerful warrior-goddess is known, Has nine special forms–each one unique, not just a clone. Shailaputri, Brahmacharini and Chandraghanta, Kushmanda and Skandamata, Katyayani and Kaalratri, Maha Gauri and Siddhidatri . . . They are the Nava Durga, Worshipped during Navaratri, The festival of nine nights and nine days That's celebrated across India and the world in myriad ways To praise the goddesses and their glory. This is their story!

Rising in Love tells the story of the author's extraordinary spiritual awakening in America (which included meeting an angel), his discovery of Amma (the living Guru known in the West as "the Hugging Saint"), and the 27 amazing years he has spent in quest of Enlightenment as Amma's devotee, most of that time in India. The book is a multi-faceted diamond. It is a suspenseful psychological thriller, a page-turner from the outset—yet there also much humor in the narrative, and at times reads like a comedic novel. From another angle, it is a story of profound healing from delusion, drug addiction and despair into a joyous and beautifully fulfilled life, and as such it is a ray of hope for all who suffer from addiction or mental illness of one kind or another.

"Amazzone's voice is strong and clear. Goddess Durga promises the transformation, empowerment, and dignity that is our birthright."—Marisa Tomei, Academy Award-winning actor.
