AS FAR AS FITTING the STEREOTYPES bestowed to infamous chain-link murderers that exist outside African American culture, there was a time when black serial killers were recognized, to some extent, implausible by

purported experts who probably cared not to explore the primary nature of the slayers' transgressions. Nevertheless, the obscured story of handyman Morris Solomon Jr. has to be one of the most interesting tales untold as it is one of the most horrific yarns in the annals of American crime. the handyman's misdeeds, when briefly brought to the public's attention, virtually reminded society that killers continuously come in all colors, shapes, and sizes. Solomon was convicted of killing six young women, ages 16 to 29, in the Sacramento, California, neighborhood of Oak Park between 1986 and 1987. the handyman's grisly method of murder left detectives and medical examiners mystified. the identification process of his victims' remains was distinctly a laborious assignment, too. the victims --drug addicts, prostitutes, and devout mothers --

were stuffed in closets, hidden under debris, and arguably, one court judge strongly considers, buried alive. In retrospect, the handyman was first accused of murder in the mid-1970s; and authorities suspect him to be linked to four more homicides in Sacramento. Solomon -- once declared as a "Mentally Disordered Sex Offender"-- is now on death row in Northern California's San Quentin State Prison awaiting execution. the unassuming handyman's 18-year reign of terror includes a record of sexual assaults, attempted kidnappings, and separate despicable sex acts performed strictly for humiliation. In the Homicidal Handyman of Oak Park: Morris Solomon Jr., author and journalist Tony Ray Harvey recounts the black serial killer's dysfunctional upbringing, atrocious crimes, and hardly noticeable court trial. Harvey's book also provides explicit crime scene photos, the

history of the death penalty system in the state of California, the city of Sacramento's drug culture in the mid-1980s, and exclusive prison interviews of the mild-mannered handyman.

Since he was seven, Cary Stayner had dreamed of capturing women . . . and killing them They were crimes that grabbed headlines around the world and stunned America. Now Dennis McDougal, acclaimed author of the spellbinding true crime tour de force Mother's Day, brings his considerable investigative and narrative skills to the Yosemite murders to give you the most complete account of what really happened. presents the definitive story, and answers many lingering questions. What demons drove this quiet handyman and nudist colony habitue to burn, mutilate, and murder four women he didn't even know? How did he overpower a woman and two teenaged girls? And most disturbing, did the glory-seeking FBI actually hinder the investigation, leaving the killer free to kill once more before he was caught? **THE YOSEMITE MURDERS** offers valuable insight into these savage and senseless murders in the heart of America's most beautiful wilderness.

Peter Manuel killed repeatedly, both random and targeted victims, including men, women, and children, because he enjoyed the rush. As a life-long criminal, Manuel mainly committed property crime. That all changed when his heart was broken. The woman he'd been engaged to called off the wedding and left him, causing Peter to snap. His violence

escalated then, and Peter terrorized various communities for almost two years. His cockiness had no end, and he went as far as giving a police inspector a ride while the inspector was searching for one of the teenage girls Peter had murdered. Peter toyed with the detective and advised him he thought the police were looking in the wrong spot for the girl. Ultimately, Peter's arrogance and insatiable need for attention led to his demise...one that made him meet his own executioner as he hung from a noose on prison gallows. This is a frightening story because no one was exempt from becoming his victim.

Amidst the breathtaking natural beauty of Yosemite National Park, four terrifying killings took place. For months, law enforcement officials were stumped by the deaths of three tourists: Carole Sund, her teenaged daughter Juli, and a family

friend, Silvina Pelosso. But when they found the decapitated body and head of 26-year-old naturalist Joie Ruth Armstrong, they were led to one man: 37-year-old handyman Cary Stayner. Stayner was arrested at a California nudist colony and soon admitted to all four killings, claiming he'd had urges to kill women for thirty years. And Cary's twisted impulses were not the only tragedy of the Stayner family. At the age of seven, his younger brother Steven was abducted by a pedophile and forced to live with the man for seven years, until he escaped. His story was told in a TV movie called "I Know My First Name is Steven." Steven would ultimately die in a motorcycle crash at twenty-four. What are the odds of one family suffering such astounding tragedies? What would compel a seemingly pleasant, clean-cut man to brutally attack and gruesomely kill four

innocent women? Did he act alone? Or was his a false confession? Bestselling true crime author Carlton Smith searches for the shocking answers in *Murder at Yosemite*, this fascinating account of murder and madness.

Named Most Anticipated Crime Book of the Year by CrimeReads ??A chilling true story—part memoir, part crime investigation—reminiscent of Ann Rule’s classic *The Stranger Beside Me*, about a little girl longing for love and how she found friendship with her charismatic babysitter—who was also a vicious serial killer. Growing up on Cape Cod in the 1960s, Liza Rodman was a lonely little girl. During the summers, while her mother worked days in a local motel and danced most nights in the Provincetown bars, her babysitter—the kind, handsome handyman at the motel where her mother

To Liza, he was one of the few kind and understanding adults in her life. Everyone thought he was just a “great guy.” But there was one thing she didn’t know; their babysitter was a serial killer. Some of his victims were buried—in pieces—right there, in his garden in the woods. Though Tony Costa’s gruesome case made screaming headlines in 1969 and beyond, Liza never made the connection between her friendly babysitter and the infamous killer of numerous women, including four in Massachusetts, until decades later. Haunted by nightmares and horrified by what she learned, Liza became obsessed with the case. Now, she and cowriter Jennifer Jordan reveal the chilling and unforgettable true story of a charming but
