The new emergency health kit  
In the acute phase of an  
emergency, or in the case of  
displacements of refugee  
populations without any  
medical care, it is better  
to send a standardized kit  
of drugs and medical  
supplies that is  
specifically designed for  
this purpose.

Developed by WHO and the  
International Committee of  
the Red Cross in

collaboration with the  
International Federation for  
Emergency Medicine Basic  
Emergency Care (BEC):

Approach to the acutely ill  
and injured is an open-  
access training course for  
frontline healthcare  
providers who manage acute  
illness and injury with  
limited resources. BEC  
teaches a systematic  
approach to the initial  
assessment and management of  
time-sensitive conditions  
where early intervention  
saves lives. It includes

Download File PDF The  
New Emergency Health Kit  
modules on: the ABCDE and  
SAMPLE history approach  
trauma difficulty in  
breathing shock and altered  
mental status. The practical  
skills section covers the  
essential time-sensitive  
interventions for these key  
acute presentations. The BEC  
package includes a  
Participant Workbook and  
electronic slide decks for  
each module. BEC integrates  
the guidance from WHO  
Emergency Triage Assessment  
and Treatment (ETAT) for  
children WHO Pocket Book of  
Hospital Care for Children  
WHO Integrated Management of  
Pregnancy and Childbirth and  
the Integrated Management of  
Adult/Adolescent Illness
