into the future. In his struggles to protect his people, he fought the kushtaka an evil spirit being who was half human and half land hotter for the souls of dying persons. Theirs was a battle between the forces of good and evil, and today it remains a cornerstone in Tlingit and Haida mythology. Mary Giraudo Beck provides a powerful mix of history, legend, and adventure to dramatize the values and traditions of Tlingit and Haida societies. The heroic and wondrous incidents in these stories transcend time and culture and, as tales of myth and magic, provide compelling reading for young and old alike.

Through the mists of Alaska's rain forest, totem poles have stood watch for untold generations. Imbued with mystery to outsider eyes, the fierce, carved symbols silently spoke of territories, legends, memorials, and paid debts. Today many of these cultural icons are preserved for the public to enjoy in heritage parks and historical centers through southeast Alaska. And, after nearly a century of repression, totem carving among Alaska's Tlingit, Haida, Tsimshian peoples is flourishing again. In this newly revised edition of Alaska's Totem Poles, readers learn about the history and use of totems, clan crests, symbolism, and much more. A special section describes where to go to view totems. Author Pat Kramer traveled throughout the homelands of the Totem People—along Alaska's Panhandle, the coast of British

Columbia, and into the Northwest—meeting the people, learning their stories, and researching and photographing totem poles. Foreword writer David A. Boxley also offers the unique perspective of a Native Alaskan carver who has been a leader in the renaissance. This is a handy guide for travelers in Southeast Alaska who want to learn more about Alaska's totems. There's even a guide of where to view totems in the state. Ravens, killer whales (Orca) and bears... they're all represented in the totem.

**** The standard information sourcebook on the North American Indian, cited in BCL3, Sheehy, ARBA. The present revised and expanded edition (5th was in 1990) is now in a three column format. The Encyclopedia is divided into three main sections: Source Listings, Bibliography, and Who's Who. A new subsection within the Source Listings, Arts and Crafts Shops and Cooperatives, contains some 900 sources of retail, wholesale, and mail order Native American art and craft supplies. Approximately 500 in-print books have been added to the bibliography, and about 500 new biographies have also been added. Annotation copyright by Book News, Inc., Portland, OR

Among the Northwest Coast Indians (Tlingit, Haida, and others), potlatches traditionally are lavish community gatherings marking

important events, such as funerals or marriages. In celebrations that often last many days, sumptuous meals are served; legends about clans and ancestors are sung and enacted with dances, masks, costumes, and drums; totem poles are often raised; and gifts are presented to all guests. Through this custom, cultural ties are renewed and strengthened. Using details from historical potlatches, and skillfully weaving in legends about animals and spirits revered by Natives--Raven, Grizzly Bear, Salmon, Frog--Mary Beck creates a compelling account of the potlatch ceremony and its place in a community's celebration of life, death, and continuity.

A world list of books in the English language.

North America was inhabited Native tribes some ten thousand years ago. As generations passed, the tribes formed individual communities, full of rich customs, beliefs, and ideals. Despite facing hardship in later centuries, the First People of North America continue to thrive in modern times. This book discusses the origin of the Tlingit, their rituals, beliefs, and culture, and their importance in society today.

Among Southeast Alaska's best-known tourist attractions are its totem parks, showcases for monumental wood sculptures by Tlingit and

Haida artists. Although the art form is centuries old, the parks date back only to the waning years of the Great Depression, when the US government reversed its policy of suppressing Native practices and began to pay Tlingit and Haida communities to restore older totem poles and move them from ancestral villages into parks designed for tourists. Dramatically altering the patronage and display of historic Tlingit and Haida crests, this New Deal restoration project had two key aims: to provide economic aid to Native people during the Depression and to recast their traditional art as part of America's heritage. Less evident is why Haida and Tlingit people agreed to lend their crest monuments to tourist attractions at a time when they were battling the US Forest Service for control of their traditional lands and resources. Drawing on interviews and government records, as well as the totem poles themselves, Emily Moore shows how Tlingit and Haida leaders were able to channel the New Deal promotion of Native art as national art into an assertion of their cultural and political rights. Just as they had for centuries, the poles affirmed the ancestral ties of Haida and Tlingit lineages to their lands.
