Covering New York, American & regional stock exchanges & international companies.

The official autobiography of Season BubbleGirl, the writer who hasn't left her home since 1997. A chemical accident left her with Multiple Chemical Sensitivity (MCS), changing her life forever. Romance, challenges, medical battles, near-death experiences, achievements, and relationships: she explains in detail with nothing hidden. Learn how she turned a debilitating experience into a daily journey of hope. Find how she lives with MCS comfortably, while still achieving her goals. Read about the soul behind her harsh truth.

The X-ray equipment maintenance and repairs workbook is intended to help and guide staff working with, and responsible for, radiographic equipment and installations in remote institutions where the necessary technical support is not available, to perform routine maintenance and minor repairs of equipment to avoid break downs. The book can be used for self study and as a checklist for routine maintenance procedures.

So you want to learn the ins and outs of creating dance music and looking to improve your production? Then this book is just for you. No matter what genre you are interested in- trance, techno, garage, chill out, house or what tool you are working with- Abelton, Reason, Reaktor or Absynth, Snowman covers every aspect of dance music production- from sound design, compression and effects to mixing and mastering to help you improve your music. No matter what your level of experience the Dance Music Manual is packed with sound advice, techniques and practical tips to help you achieve professional results. The CD provides demo tracks showing what can be achieved when applying the advice contained in the book, including examples of the quality difference before and after mixing and mastering. The CD also contains free software demos for you to download. For even more advice and resources, check out the book's official website www.dancemusicproduction.com

The FIAF Moving Image Cataloguing Manual is the result of many years of labor and collaboration with numerous professionals in the moving image field. It addresses the changes in information technology that we've seen over the past two decades, and aligns with modern cataloguing and metadata standards and concepts such as FRBR (Functional Requirements for Bibliographic Records), EN 15907, and RDA (Resource Description and Access). The manual is designed to be compatible with a variety of data structures, and provides charts, decision trees, examples, and other tools to help experts and non-experts alike in performing real-world cataloguing of moving image collections.
