Translate.com has two translation options, such as machine and human translations. Select the best one for you based on your requirements. A machine translation is instant and translates your content directly to the language you've selected. Unlike a professional translation, it doesn't provide such things as context or tone of voice.

"Karin Bergöö Larsson (1859-1928) was a mother of eight and wife to Sweden's beloved painter, Carl Larsson. She was herself a well-regarded artist but gave it up when she married, at the request of her husband. Replacing paintbrushes and canvas with needles and cloth, she turned a somewhat ugly cottage into a designer showcase"--

This open access book explores how digital tools and social media technologies can contribute to better participation and involvement of EU citizens in European politics. By analyzing selected representative e-participation projects at the local, national and European governmental levels, it identifies the preconditions, best practices and shortcomings of e-participation practices in connection with EU decision-making

procedures and institutions. The book features case studies on parliamentary monitoring, e-voting practices, and e-publics, and offers recommendations for improving the integration of e-democracy in European politics and governance. Accordingly, it will appeal to scholars as well as practitioners interested in identifying suitable e-participation tools for European institutions and thus helps to reduce the EU's current democratic deficit. This book is a continuation of the book 'Electronic Democracy in Europe' published by Springer.

===== 400 photos de reportage sur le SAINT LINCEUL Pour les uns, c'est le Linceul qui a enveloppé Jésus. Pour les autres, c'est une habile peinture du Moyen-âge. Depuis 110 ans il est l'objet archéologique, le plus étudié du monde par les savants toutes disciplines confondues et pourtant, il reste une énigme que la science moderne ne peut reproduire. Ce livre est écrit comme : —Une enquête policière et scientifique. — Un reportage (environ 400 photos) et une aventure humaine et spirituelle. — Un roman historique d'aventures avec un voyage de plus de 3000 km à travers les 2 millénaires où vous ferez la connaissance de nombreux personnages, des chevaliers, des rois, des religieux, des scientifiques, des hommes et des femmes de toutes professions pour ou contre l'authenticité du Saint-Linceul — Une synthèse du dossier scientifique du linceul avec les dernières mises à jour le concernant.

Building Information Modelling (BIM) is a global phenomenon which is gaining significant momentum across the world. Currently there is little information on how to realise and monitor benefits from implementing BIM across the life-cycle of a built environment asset. This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory. It presents an approach for practitioners aiming to implement BIM across the life-cycle of built environment assets, including both buildings and infrastructure. Additionally, the book features: wide-ranging information about BIM, the challenges of monitoring progress towards benefit goals and the greater context of implementation; a set of dictionaries that illustrate: how benefits can be achieved, what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them; a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM; real-world examples from across the world and life-cycle phases that show how these benefits can be achieved; and information on international maturity and competency measures to complement the value realisation framework. Including a blend of academic and industry input, this book has been developed in close collaborative consultation with industry, government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset management or by universities that teach BIM-related courses.

Prezados Leitores! Elaborei esta obra, como autodidata, cético, humanista, racionalista, livre pensador, naturalista, pacifista, pesquisador estudioso independente da origem da história do cristianismo primitivo. Não sou terapeuta, sou um escritor "ghost writer" que observa a vida com fome e curiosidade. Foi com o propósito de publicar meus ensaios, questionar e colocar em xeque conceitos e contradições como religiosidade e dar uma nova visão sobre as origens históricas das religiões que surgiu esse livro. Espero surpreender você. O livro relata fatos, assuntos memoráveis e provocativos com o objetivo de conscientizar, construir, iluminar. Certos fatos não podem mais ser ignorados

como: De onde viemos? Como surgiu a vida? Por que estou aqui vivendo? Quem somos? Qual o sentido da vida e como devemos nos comportar em relação a dogmas religiosos? Existe vida eterna? Eu não sei tudo, mas descobri o suficiente filosofando. As únicas coisas que temos e que mais se aproximam do que poderíamos presunçosamente chamar de respostas advêm de fontes como as: científicas, históricas, filosóficas e religiosas. Também questiono se foi um Deus quem criou o homem à sua imagem e semelhança, porque sofremos e se as religiões oferecem a resposta através da crença religiosa. A Bíblia é a palavra inspirada por Deus? E as contradições nos livros ditos sagrados? A Bíblia e sua doutrina cristã é verdadeira? Os livros santos são a fonte da verdade ou eles são apenas mitologias cristãs, lendas e fábulas milenares? Todos nós nascemos em pecado? Estudo completo sobre personagens bíblicos que não existiram...literatura, arte, política, economia, biologia, cosmologia, astronomia, arqueologia, geografia, história, ciência, neurociência, filosofia e psicologia. Um guia para religiosos convictos, irreligiosos e curiosos!

Shahla Ali presents comparative empirical research about the design of consumer financial dispute resolution mechanisms in Asia, America and Europe.

Esta obra compila varios ensayos acerca del Estado de derecho y los continuos llamados que, desde distintos ámbitos, se realizan para evitar lo que algunos consideran la "crisis" de este principio. Los autores se refieren a la problemática desde distintas perspectivas, a saber: desde la teoría del derecho, desde el derecho público y desde el derecho corporativo. Los ensayos han sido escritos, en su mayoría, por estudiantes del programa de Doctorado en Derecho de la Universidad Externado de Colombia, entre quienes se encuentran reconocidos catedráticos, jueces, litigantes y servidores públicos. La obra se complementa con valiosos aportes de juristas como Mark Tushnet, profesor de la Universidad de Harvard [Estados Unidos] y Thomas da Rosa de Bustamante, profesor de la Universidad Federal de Minas Gerais [Brasil], quienes se refieren a los riesgos que para el principio de Estado de derecho representan la hipercomplejidad normativa y la de asuntos políticamente sensibles, respectivamente. Con seguridad, estos ensayos serán de gran interés para la comunidad académica, y darán mucho de qué hablar.

A Groundbreaking Guide to the HPV Vaccine and the Science, Safety, and Business Behind It Cancer strikes fear in people's hearts around globe. So the appearance of a vaccine to prevent cancer—as we are assured the human papillomavirus (HPV) vaccine will—seemed like a game-changer. Since 2006, over eighty countries have approved the vaccine, with glowing endorsements from the world's foremost medical authorities. Bringing in over \$2.5 billion in annual sales, the HPV vaccine is a pharmaceutical juggernaut. Yet scandal now engulfs it worldwide. The HPV Vaccine on Trial is a shocking tale, chronicling the global efforts to sell and compel this alleged miracle. The book opens with the vaccine's invention, winds through its regulatory labyrinths, details the crushing denial and dismissal of reported harms and deaths, and uncovers the enormous profits pharma and inventors have reaped. Authors Holland, Mack Rosenberg, and Iorio drill down into the clinical trial data, government approvals, advertising, and personal accounts of egregious injuries that have followed in countries as far-flung as Japan, Australia, Colombia, India, Ireland, the U.K. and Denmark. The authors have written an unprecedented exposé about this vaunted vaccine. Written in plain language, the book is for everyone concerned – parents, patients, doctors, nurses, scientists, healthcare organizations, government officials, and schools. Ultimately, this book is not just about the HPV vaccine, but about how industry, government,
