The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters ' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560? – 1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

The new book from the winner of the inaugural International Man Booker Prize is a modern-day love story of powerful obsession set against the background of dark political intrigue. On the autobahn in Vienna a taxi leaves the carriageway and strikes the crash barrier, flinging its male and female passengers out of its back doors as it spins through the air. The driver cannot explain why he lost control; he only says that the mysterious couple in the back seat seemed to be about to kiss . . . Set against the tumultuous backdrop of war and its aftermath in the Balkans, *The Accident* intimately documents an affair between two people caught in each other's webs. The investigation into their deaths uncovers a mutually destructive obsession that mirrors the conflicts of the region. A destabilizing mixture of vivid hallucination and cold reality, Ismail Kadare's new novel is a bold and fascinating departure.
