At the end of Apartheid in 1994, about 82 million hectares of commercial farmland (86% of all farmland) was in the hands of the white minority. Over thirteen million black people lived in crowded former homelands under extreme poverty. Since 1994, the government of South Africa has initiated several land reform programs in order to address the racial imbalance in land holding and secure the land rights of historically disadvantaged people. This review of experiences of supporting emerging historically disadvantaged farmers examines the implementation of the land reform policy and its support programmes and documents several cases of support to emerging framers. Best practices are synthesised from the review and compared with international best practice experiences. The document will be of interest to policymakers, researchers, students and NGO staff working on land reform programs.

Ophthalmic Nursing provides an overview for those just setting out in a role within ophthalmic nursing. It includes basic and comprehensible anatomy and physiology – the foundations for understanding how the eye functions and why and how problems occur – and relates them to the care and needs of the patient. This accessible text includes evidence-based procedure guidelines and the inclusion of reflective activities in most chapters allows readers to apply their knowledge to the realities of the care setting. Also covered are the most recent National Institute for Health and Care Excellence (NICE) guidelines for glaucoma and age-related macular degeneration. Since the publication of the fourth edition, there have been many advances in the care and management of the ophthalmic patient. The authors have updated the chapters accordingly and included new colour images and diagrams. References, further reading and websites have also been updated to reflect current trends. A valuable resource for nurses in practice and training, this book continues to be the ' go-to ' source for those caring for the ophthalmic patient.

A flame-throwing epidemiologist talks about sex, drugs, and the mistakes (dismal), ideologies (vicious), and hopes (realistic) of international AIDS prevention. When people ask Elizabeth Pisani what she does for a living, she says, "sex and drugs." As an epidemiologist researching AIDS, she's been involved with international efforts to halt the disease for fourteen years. With swashbuckling wit and fierce honesty, she dishes on herself and her colleagues as they try to prod reluctant governments to fund HIV prevention for the people who need it most—drug injectors, gay men, sex workers, and Johns Pisani chats with flamboyant Indonesian transsexuals about their boob jobs and watches Chinese streetwalkers turn away clients because their SUVs aren't nice enough. With verve and clarity, she shows the general reader how her profession really works; how easy it is to draw wrong conclusions from "objective" data; and, shockingly, how much money is spent so very badly. "Exhibit A": the 45 billion taxpayer dollars the Bush administration is committing to international AIDS programs.

As the twentieth century draws to a close, Arnold Schoenberg (1874-1951) is being acknowledged as one of its most significant and multifaceted composers. Schoenberg and His World explores the richness of his genius through commentary and documents. Marilyn McCoy opens the volume with a concise chronology, based on the latest scholarship, of Schoenberg's life and works. Essays by Joseph Auner, Leon Botstein, Reinhold Brinkmann, J. Peter Burkholder, Severine Neff, and Rudolf Stephan examine aspects of his creative output, theoretical writings, relation to earlier music, and the socio-cultural contexts in which he worked. The documentary portions of Schoenberg and His World capture Schoenberg at critical periods of his career: during the first decades of the century, primarily in his native Vienna; from 1926 to 1933, in Berlin; and from 1933 on, in the U.S. Included here is the first complete translation into English of the remarkable Festschrift prepared for the 38-year-old Schoenberg by his pupils in 1912; it presciently explored the diverse talents as a composer, teacher, painter, and theorist for which he was later to be recognized. The Berlin years, when he held one of the most prestigious teaching positions in Europe, are represented by interviews with him and articles about his public lectures. The final portion of the volume, devoted to the theme Schoenberg and America, focuses on how the composer viewed—and was viewed by—the country where he spent his final eighteen years. Sabine Feisst brings together and comments upon sources which, contrary to much received opinion, attest to both the considerable impact that Schoenberg had upon his newly adopted land and his own deep involvement in its musical life.

"Committed to a psych ward against her will, Naomi Carradine knows there's been a huge mistake. But it's no use explaining the shocking and sensational events leading up to her confinement. When she tells others what she has witnessed, no one believes her, or remotely understands the extreme highs and lows she's experienced. Even her childhood sweetheart Lachlan seems to think Naomi is losing her mind and begins to pull away. With everyone convinced she's insane, and finding herself haunted by demons both real and imagined, Naomi starts to worry they may be right. With the help of a sensitive new psychiatrist, Naomi must face a traumatic past that may have fractured her reality ... and discover that even the purest of souls have darkness in them"~

Behind the Glass, Volume II presents another prime collection of firsthand interviews with the world's top record producers and engineers, sharing their creative secrets and hit-making techniques – from the practical to the artistic. In these pages you'll find Daniel Lanois (U2, Bob Dylan) discussing the future of digital recording; T-Bone Burnett (Robert Plant and Alison Krauss) sharing his unique view of creating complex low end; and Hugh Padgham (Police, Genesis) analyzing the state of the business today. For real-world advice on everything from home recording to mixing to coaching a nervous singer, check out author Howard Massey's conversations with Mark Ronson (Amy Winehouse), Tony Brown (Reba McEntire), Gus Dudgeon (Elton John), John Simon (The Band), Russ Titelman (Steve Winwood), Bruce Swedien (Michael Jackson), Rodney Jerkins (Mary J. Blige), Simon Climie (Eric Clapton), Matt Serletic (Matchbox Twenty), and more.

At the end of a steep gravel road in one of the remotest corners of South Africa's Eastern Cape lies the village of Ithanga. Home to a few hundred villagers, the majority of them unemployed, it is inconceivably poor. It is to here that award-winning author Jonny Steinberg travels to explore the lives of a community caught up in a battle to survive the ravages of the greatest plague of our times, the African AIDS epidemic. He befriends Sizwe, a young local man who refuses to be tested for AIDS despite the existence of a well-run testing and anti-retroviral programme. It is Sizwe's deep ambivalence, rooted in his deep sense of the cultural divide, that becomes the key to understanding the dynamics that thread their way through a terrified community. As Steinberg grapples to get closer to finding answers that remain just out of reach, he realizes that he must look within himself to unlock the paradoxes at the heart of his country.

Southern African material organised for quick reference in the ward or clinic helps students and doctors inexperienced in HIV/Aids care on the spot in urban and rural settings. The book includes substantial information and guidelines on anti-retroviral therapy.

I'm a journalist--Adam Kincaid, BBC reporter, to be exact, so I'm not going to bury the lead. I'm about to see the woman I never got over. I know that because I've been back in America for years now, and I still don't date American girls. My dad would say I've come to my senses, sticking to my own British patrician kind, but that's crap. Mum, the psychologist, would more wisely say it's my unresolved issues around Nicki. My teenage years are long behind me, yet my guilt over her remains. So I've avoided all things Nicki, though the irony is she's the one avoiding me. Maybe if we see each other, we can both move on. Could she ever forgive me? Can you forgive yourself when you hurt someone you love? But please, don't answer yet. I've jumped ahead of the story, and as a reporter, I should give you more background to get to the root of it all. So let me tell you my story. Then you can be the judge.
