What I Was Doing While You Were Breeding reminded me of Sex and the City and Are You There Vodka, It's Me Chelsea. Told through shirt stories, the book gave me the confidence to travel alone. The writing had the same biting humor that Chelsea Handler's book had, but the author's pride for her life decisions made her come across as overconfident, and not in a good way.

Funny L.A. girl Kristin Newman wrote for hit TV shows like That '70s Show and How I Met Your Mother, but her debut memoir What I Was Doing While You Were Breeding follows her extensive off-season travel and ensuing personal growth. In her twenties and thirties, it seemed like all of her friends were getting married and reproducing (I'm sure many of us can relate).

What I was Doing While You Were Breeding starts with a prologue by an author explaining that she's not a slut, but enjoys men adventures on her travels - what already left me puzzled. The entire plot is about Kristin going on escapades to have some fun with foreign guys. Sometimes "dating" two or three at once.

Anyway, everyone around me was engaged in a lot of engaging, marrying, and breeding while I remained resolutely terrified of doing any of it. I did want to have a family someday . . . it was just that "someday" never seemed to feel like "today."

While you moved on, I cried. I couldn't sleep, I couldn't eat, and I replayed every moment in my mind. While you moved on, I was there for you in your worst moments of life, and you left me when I needed you the most. While you moved on, I took months to heal. While you moved on, I took two steps forward and 20 steps back.

WHAT I WAS DOING WHILE YOU WERE BREEDING "If Mark Twain was a woman and he had actually done things in the countries he traveled to, he would have been a lot more pleasant. Part laugh-out-loud storytelling, part thoughtful self-reflection, this debut memoir from a television comedy writer follows her many adventures around the world in an attempt to escape her fear of commitment and settling down. Original. 50,000 first printing.

A funny, sexy, and ultimately poignant memoir about mastering the art of the "vacationship." Kristin Newman spent much of her twenties and thirties buying dresses to wear to her friends' weddings and baby showers. Not ready to settle down and in need of an escape from her fast-paced job as a sitcom writer, Kristin instead traveled the world, often alone, for several weeks each year. In addition to falling madly in love with the planet, Kristin fell for many attractive locals, men who could provide the emotional connection she wanted without costing her the freedom she desperately needed. Kristin introduces readers to the Israeli bartenders, Finnish poker players, sexy Bedouins, and Argentinean priests who helped her transform into "Kristin-Adjacent" on the road—a slower, softer, and, yes, sluttier version of herself at home. Equal parts laugh-out-loud storytelling, candid reflection, and wanderlust-inspiring travel tales, *What I Was Doing While You Were Breeding* is a compelling debut that will have readers rushing to renew their passports.

How to Relax, Slow Down, Recharge Your Batteries and Reclaim Control over Your Life Today's world is charging at a breakneck speed. People are working over twelve hours every single day, catching extra minutes of sleep in the metro, and completely giving up on the antiquated notion of time to spend with their own kids. There are people in their twenties neglecting every single aspect of their lives but their careers looking twice older than they should. And 1 person out of 4 dies from cardiovascular disease — caused mostly by unhealthy eating, a lack of physical activity, smoking, and consuming too much alcohol and worthless junk food that clogs their arteries. This book will teach you how to step away from noise, relax and recharge your batteries so you have enough left in you to control your life. Here are some of the things you'll learn: - why rituals create your life and how to develop a proper morning routine to ensure a calm mind. - 3 main stress management techniques for recharging you're probably not aware of. They can make you well-rested or, if you disregard them, extremely exhausted. - how to get away from highly-stimulating surroundings to recharge in peace. If you live in a city, you MUST read this chapter. - how to let go of negative nagging thoughts you can't get out of your head. You don't have to carry them with you all the time. - 7 powerful habits to reduce stress. And no, I'm not

Do ethics pay? In an attempt to answer this question, the authors analyze the economic theories that might rehabilitate ethics in the world of sales and turn them into an effective tool for conducting negotiations. This book proposes a "bottom-up" approach that starts from an analysis of sales activities to build a business style that, if adopted by an entire organization, can make the difference thus enhancing the company's success. Italian culture provides a backdrop to the book; the authors reinterpret the particular nature of the country's economic and social fabric and integrate this into an approach to business that can create authentic relationships, shared prosperity and quality of life across other cultures. Sale Ethics stimulates the development of a self-entrepreneurial mind-set that is useful in any field, and provides a simple and effective method of capitalizing on your own talents while respecting others and at the same time garnering the rewards of ethical behavior.

With her landmark investigation *Overdressed- The Shockingly High Cost of Cheap Fashion*, Elizabeth Cline was the first to reveal fast fashion's hidden toll on garment workers, the environment, and even our own satisfaction with our clothes. *The Conscious Closet* shows exactly what we can do about it. Based on her personal experiences getting off the fast-fashion treadmill and figuring out a common-sense and affordable approach to conscious style, Elizabeth will share how to pare down your closet; swap, resell, or recycle what you don't love; better care for and repair what you do; and how to affordably buy, thrift, or rent the ethical wardrobe of your dreams. Whether your goal is to build an effortless capsule wardrobe, keep up with trends, buy quality, seek out ethical brands, or all of the above, this is the book for you. *The Conscious Closet* is not just a style guide. It is a manifesto and call to action to transform one of the most polluting industries on earth, fashion, into a force for good, on both a micro level- our own closets-and macro level, by learning where and how our clothes are made, and how to connect to a global and impassioned community of stylish fashion revolutionaries for bigger systematic change. Clothing is one of the most personal expressions of who we are, and in *The Conscious Closet*, Elizabeth aims to help readers truly understand and love their clothes again-without sacrificing the environment or their morals in the process.

Praise for *Your Portable Empire* "In a sea of snake oil and get-rich-quick nonsense about fast money on the Internet from people who haven't really done it, O'Bryan's book is a ship of sanity to an island of commonsense e-commerce? This works." □Mark Joyner, Wall Street Journal bestselling author of *Simple.ology* "The Internet has leveled the playing field, making it possible for anybody to start a business. O'Bryan, however, has given us the easy-to-follow instruction manual on how to first discover your niche and then build it into a big enterprise that can run itself from almost anywhere-all from his successful and proven formulas. A great book for anybody serious about a better quality of life." □Joseph Sugarman, Chairman, BluBlocker Sunglass Corporation "This amazing book can free all working people to make money doing what they truly love!" □Dr. Joe Vitale, author of *The Attractor Factor* and *Zero Limits* "I know O'Bryan as a friend and colleague. He has painstakingly put together a book, with no frills or fanfare, that straight-up shares his hard-won wisdom. May I urge you to get it and read it? Not only will you enjoy it-but once you act on what you learn, you can profit mightily as well. Why? Because what's in this book lets you stop making the victim's compromise on a daily basis-and start doing the victory dance, whenever you want!" □David Garfinkel, author of *Advertising Headlines That Make You Rich* "O'Bryan lives the portable empire, running his business from a laptop with a cigar and

a glass of fine wine. There is no one better to be your guide as you create your own, because he's laid out every step for you in his inspiring and easy-to-read book. There is no need to be chained to a desk or locked in a cubicle, and your business can take you far beyond your kitchen table with the blueprint O'Bryan shares from his own successful journey." [Craig Perrine, www.maverickmarketer.com "Freedom-O'Bryan's new book makes you understand exactly how to obtain it and create the lifestyle of your dreams. Anyone who can go from being a dead-broke musician living in a mobile home to generating six figures in a single month is worth reading." [Bill Hibbler, coauthor of Meet and Grow Rich

Inside you will see the actual stories as told by the people that lived them. You will learn the paths they took to go from where you may be today to successful investors, while helping hundreds to find their path to home ownership. Get the actual methods they used to: -Buy properties with little or no cash -Help people that thought they could never own a home to reach their dream -Work with government housing grants -Find investors to support growing their business -Continue to profit in good times or bad - Everyone needs a home!

Arguing that Americans should turn to private entrepreneurs rather than the federal government to guarantee the protection and improvement of environmental quality, the authors document numerous examples of how entrepreneurs have satisfied the growing demand for environmental quality. Beginning with historical cases from the turn of the century, they illuminate the benefits of entrepreneurial participation in wildlife preservation, aquatic habitat production, and environmentally friendly housing development. As government budgets shrink and more people question the efficacy of government regulations, *Enviro-Capitalists* offers alternatives to traditional thinking about the environment. While the book does not claim that the private sector can provide solutions to all environmental problems, it offers innovative ideas that will cultivate and encourage environmental entrepreneurship.

Presents a program of open-ended literacy activities for independent, self-directed study by students during small-group reading instruction.

Drawing on more than four decades of experience as a researcher and teacher, Howard Becker now brings to students and researchers the many valuable techniques he has learned. *Tricks of the Trade* will help students learn how to think about research projects. Assisted by Becker's sage advice, students can make better sense of their research and simultaneously generate fresh ideas on where to look next for new data. The tricks cover four broad areas of social science: the creation of the "imagery" to guide research; methods of "sampling" to generate maximum variety in the data; the development of "concepts" to organize findings; and the use of "logical" methods to explore systematically the implications of what is found. Becker's advice ranges from simple tricks such as changing an interview question from "Why?" to "How?" (as a way of getting people to talk without asking for a justification) to more technical tricks such as how to manipulate truth tables. Becker has extracted these tricks from a variety of fields such as art history, anthropology, sociology, literature, and philosophy; and his dazzling variety of references ranges from James Agee to Ludwig Wittgenstein. Becker finds the common principles that lie behind good social science work, principles that apply to both quantitative and qualitative research. He offers practical advice, ideas students can apply to their data with the confidence that they will return with something they hadn't thought of before. Like *Writing for Social Scientists*, *Tricks of the Trade* will bring aid and comfort to generations of students. Written in the informal, accessible style for which Becker is known, this book will be an essential resource for students in a wide variety of fields. "An instant classic. . . . Becker's stories and reflections make a great book, one that will find its way into the hands of a great many social scientists, and as with everything he writes, it is lively and accessible, a joy to read." [Charles Ragin, Northwestern University
