~~Introduction in: Writing the war on terrorism~~

Jackson simply makes us aware of the science of critical discourse analysis and applies it to the most interesting contemporary issue, which is terrorism and the 'war on terror'. Jackson makes a point of writing 11th September 2001 as opposed to 9-11, as using the term 9-11 makes the events lose their specific history and context, what he argues is a deliberate ploy by the Bush administration and the media.

Challenging the predominantly Euro-American approaches to the field, this volume brings together essays on a wide array of literary, filmic and journalistic responses to the decade-long wars in Afghanistan and Iraq. Shifting the focus from so-called 9/11 literature to narratives of the war on terror, and from the transatlantic world to Iraq, Syria, Afghanistan, the Afghan-Pak border region, South Waziristan, Al-Andalus and Kenya, the book captures the multiple transnational reverberations of the discourses on terrorism, counter-terrorism and insurgency. These include, but are not restricted to, the realignment of geopolitical power relations; the formation of new terrorist networks (ISIS) and regional alliances (Iraq/Syria); the growing number of terrorist incidents in the West; the changing discourses on security and technologies of warfare; and the leveraging of fundamental constitutional principles. The essays featured in this volume draw upon, and critically engage with, the conceptual trajectories within American literary debates, postcolonial discourse and transatlantic literary criticism. Collectively, they move away from the trauma-centrism and residual US-centrism of early literary responses to 9/11 and the criticism thereon, while responding to postcolonial theory 's call for a historical foregrounding of terrorism, insurgency and armed violence in the colonial-imperial power nexus. This book was originally published as a special issue of the European Journal of English Studies.

According to President Bush, "the American people are safer" as a result of invading Iraq. True, Saddam Hussein has been removed from power. But al Qaeda, the group that planned and carried out the attacks on September 11,

remains at large. Meanwhile, the White House has conceded that Saddam Hussein had nothing to do with the attacks.

Charles Peña argues that the war in Iraq is but one misstep in the Bush administration's "global war on terror."

Terrorism is simply a tactic, however, not an enemy. Trying to eradicate it is a quixotic quest that does not focus on those responsible for 9/11. Instead, the national security strategy should consist of three central elements:

establishing homeland security against further attacks;

dismantling the al Qaeda terrorist network; and enacting a foreign policy that does not attract new al Qaeda terrorists.

This approach requires restructuring U.S. forces and ending Cold War-era commitments that distract from the current, pressing threat. It also requires ameliorating the negative consequences of an interventionist U.S. foreign policy,

which creates incentives and opportunities for terrorists to target the United States. If we misdiagnose al Qaeda's motivations or focus military efforts on the wrong targets,

then we run the risk that the war against the al Qaeda terrorist threat (and the radical Islamic ideology it

represents) will become a broader war against the Islamic world that could last generations and cost countless lives.

With a foreword by Michael Scheuer, the bestselling author of *Imperial Hubris*.

Since the 1970s, Turkey has suffered 35,000 deaths through terrorism, yet the PKK terror group was only recognized as such by the European Union in 2002. The realization that terrorism poses a world-wide threat is now forcing a keen reassessment of the struggle which Turkey has had to wage with terror for over thirty years while the world looked on. Terror is clearly now a key part of the international agenda and this authoritative account details and establishes the Turkish experience. This chronological account of terrorist

attacks inside Turkey and against Turkish targets outside the country, places them in the global setting. This book will be of great interest to all students and scholars of international relations, terrorism and security studies.

Jean Bethke Elshtain advocates "just war" in times of crisis and mounts a reasoned attack against the anti-war contingent in American intellectual life. Advocating an ethic of responsibility, Elshtain forces us to ask tough questions not only about the nature of terrorism, but about ourselves. This paperback edition features a new introduction by the author, addressing the Iraq war and other events in the Middle East.

This is a major new collection of essays on literary and cultural representations of migration and terrorism, the cultural impact of 9/11, and the subsequent ‘ war on terror ’ . The collection commences with analyses of the relationship between migration and terrorism, which has been the focus of much mainstream political and media debate since the attacks on America in 2001 and the London bombings in 2005, not least because liberal democratic governments in Europe and North America have invoked such attacks to justify the regulation of migration and the criminalisation of ‘ minority ’ groups. Responding to the consequent erosion of the liberal democratic rights of the individual, leading scholars assess the various ways in which literary texts support and/or interrogate the conflation of narratives of transnational migration and perceived terrorist threats to national security. This crucial debate is furthered by contrasting analyses of the manner in which novelists from the UK, North Africa, the US and Palestine have represented 9/11, exploring the event ’ s contexts and ramifications. This path-breaking study complicates the simplistic narratives of revenge and wronged innocence commonly used to make sense of the attacks and to justify the US response. Each novel discussed seeks to interrogate and analyse a discourse typically dominated by consent, belligerence and paranoia. Together, the collected essays suggest the value of literature as an effective critical intervention in the very fraught political aftermath of the ‘ war on terror ’ . This book was published as a special issue of the Journal of Postcolonial Writing.
