Daniel Merrick at the age of 7 said the sinner's prayer and began reading his Bible every day. By the age of 8 Dan discovered many verses which said to call on and praise "His Holy Name", Dan questioned, "What is his Holy Name". Dan went to his pastor and asked that question "What is God's Name". The pastor's response was that the name was lost over time, to which Dan replied: "If God lost His name, I will help him find it". The YaHUaH Bible is the result of Dan's search of Paleo Hebrew phonetic that show the Hebrew roots of the Christian faith are embedded in many old testament prophesies. Dr. Lyon shows that the Bible promises healing by Jesus if we fulfill the requirements of believing His promises. He points out the Divine healing as the Bible teaches can be instantaneous, gradual, by the use of means, and even death is a form of healing. He also discusses old age and our service for the Lord. The booklet is not only a presentation for Biblical healing, but a manual showing how we can experience healing and be an instrument for divine healing.

In this powerful mini-handbook Bishop Sinegal brings revelation and insight to walking in financial integrity as it relates to scriptural giving. Bishop breaks the back of the misconception of the tithe, frees the believer from tithing under the law, and teaches Kingdom principles for a better covenant especially as it relates to giving. This book will release the Kingdom Citizen from fear concerning giving and produce the spirit of mature sons. Malachi 1:6 says if He be our father, He is owed honor. That is the substratum of every principle of Kingdom giving, HONOR. The law is a school master or governor for the immature babe; however for mature sons the Holy Ghost becomes the governor.

Quantum physics studies the boundary zone between the physical part of the universe and the nonphysical realm. The Bible frequently refers to the non-physical realm as the unseen or spiritual realm. So, quantum physics has a lot to say about how the spiritual realm works, but there are many confusing and inaccurate interpretations out there in popular media these days. This book will provide simple and easy ways to demystify quantum physics and to understand the Bible. We will lift the veil of the confusion surrounding the unseen realm as we explore many intriguing scientific discoveries that show us about Heaven's reality. We will also see how well the latest discoveries about the unseen realm point back to realities revealed in Scripture.

When your soul cries out, what do you do? When your soul cries out, what do you pray? When your soul cries out, whom do you confide? When your soul cries out, where do you find strength? Know that you are loved! When your soul cries out loud: Do not self-destruct. Change your perspective. He has plans for you. Cast all your cares to Him. Praise Him right now and expect Him to arrange everything on your behalf. Chon Hester knows the familiar sound of a soul crying out. She knows the shrieking penetration of a soul that longs for God to heal, deliver, restore, destroy yokes, and rejuvenate. She hopes to inspire, exhort, uplift, encourage, and motivate people with her experiences and revelatory moments. In her usual tone, humor, and practical conversation, you will experience God's love. She does not profess to be a biblical scholar; however, her experiences will allow you to move forward knowing that you are not alone, and He hears every cry and every prayer.

Daniel Merrick PhD has authored several translations including the Yahuah Bible and The Wisdom of Solomon in restored sacred name versions. This version of the rarely known Hebrew version of the Gospel of Matthew using the Spanish and Hebrew texts along with in depth study of the contextual structure of the book dating to 1380 CE having been copied from the only surviving copy of any Hebrew language Gospel. The Hebrew perspective of the roots of the Faith first begun in First Century Jerusalem lends the reader a new point of view on what truly the man Yahshua Messiah (Jesus) was teaching

and how events actually happened. Shem Tov wrote his translation during the Inquisitions to debate for liberty to stay in Spain and remain Jewish there without persecution. Cover photo of Arch of Titus circa 70AD when the remnants of the tribes of Israel were taken captive to Rome along with the temple treasures and the Hebrew books and translations which disappeared and were replaced by only Greek texts which consist of most of the translated texts of the modern Bible. Dr Dan shows how Roman influences effected even Judaism in Europe which exposes what practices are truly from the first century Faith of Yahshua and his followers. Dan also appears on weekly broadcasts of FAITH RADIO heard on AM and FM stations world wide or at www.YahsSpace.org his online fellowship for Messianic Jews and Christians. Have you ever wondered if it is possible to be a conservative evangelical Christian and also believe in biological evolution-believe that the Earth is 4.5 billion years old and that human beings share a common ancestor with not only chimpanzees, but also with mice and even earthworms? In Exploring Faith and Reason, you will find that it is not only possible, it is an essential element of how many Christians come to more fully appreciate the complexity and the great glory of God's creation. Of course many people-Christians and non-Christians alike-think that Christianity and evolution are opposing concepts. They perceive several specific points of conflict between them. Bruce Glass addresses each of these concerns by citing Scripture and the world's most respected theologians and by the application of reason. Revealed is a deeper and richer understanding of Biblical Scripture and its history. But most importantly, readers will gain a greater appreciation of the power and the capabilities of a living God that transcends space and time, as this insight is united with the findings of science. Kirkus Reviews described Exploring Faith and Reason this way: "Smart, well-informed... Lucid, engaging... Glass delivers a superb exposition of Darwinian theory and a meticulous, sharply reasoned discussion of the evidence that supports it. His logic is impeccable when he insists that evolutionary theory does not rule out the existence of God." Tremper Longman III, Ph.D., Robert H. Gundry Professor of Biblical Studies at Westmont College said, "As a non-scientist, I found that Exploring Faith and Reason presents an accessible, fascinating, and compelling presentation of evolution. As a biblical scholar, I appreciate Glass' grasp of theological issues and the biblical text. His conclusion that evolution and Christianity are compatible is a crucial message for the church today." Peter Enns, Ph.D., Professor of Christian Studies at Eastern University said, "Glass has provided a thorough look at the evidence and the processes of evolution, along side a compelling case for its compatibility with Christianity. His theological analysis is very sound as he addresses several of the commonly perceived points of tension between the Christian faith and evolution. For a thorough understanding of these issues, this book is among the very best resources available." Reverend Jordan Ogden, Lead Pastor at Antioch Community Church in Dallas, said: "Mr. Glass tackles a historically controversial topic with finesse. Wherever one may be on the issue of evolution, Glass' superb scholarship and unbiased commentary on issues of faith does not disappoint." Reverend Dr. Kristin Huffman, Associate Pastor at Memorial Drive Presbyterian Church in Houston, said: "Bruce Glass has provided a thought provoking look at the most significant theological issues arising from the advent of evolutionary science. Whatever their conclusions, readers will find Mr. Glass' treatment a welcome reminder of the richness and depth of God's Word, as well as a fresh perspective on God's glorious creation." ForeWord Clarion Reviews described it as, "Well written, thoroughly researched, and honestly fair... The book's thorough and eminently readable scientific explanations provide general science readers with a lucid understanding of this complex subject." Reverend Michael Dowd, author of Thank God for Evolution, endorsed by six Nobel Prize-winning scientists and by religious leaders across the spectrum, said that, "In Exploring Faith and Reason. Bruce Glass has emerged as a fresh voice for the reconciliation of head and heart. Couched in the language and theology of conservative evangelical Christianity, Mr. Glass' book provides a welcomed bridge between an evidential worldview and traditional Christian conviction. Believers and non-believers alike will find much of value in these pages."
